#### 1. INTRODUCTION

During the year under review the Sri Lanka Air Force (SLAF) continued to maintain its operational status in the Defence of National territory. SLAF was heavily involved in troop transportation, providing logistics support, casualty evacuation, surveillance etc.to the Security Forces positioned in the North and East although the close air support aspect was limited due to the cease fire agreement with the LTTE.Main emphasis was made to improve the standard by way of continuos training, practices and rehearsals on both flying and ground discipline. The dedicate efforts of the entire staff of the Air Force achieved a total of 16,916.10 flying hours of which 10,346.11 hours were operational , 125.05 hours were commercial and 6444.54 hours on training. The Air reconnaissance capability was enhanced by the induction of high tech HISAR surveillance aircraft during this year.

Further, the ground troops were fully deployed in providing all-round defence for the SLAF establishment and vital installations of the country.

The Performance Report has two main sections: the first comprises the Department's Annual Performance Report for 2002; including performance against our targets set at the beginning of the year 2002. The second comprises the Departmental Appropriation Accounts for the year 2002. The report also contains background information on the Sri Lanka Air Force, its organization and administration.

#### a. Section One: Annual Performance Report

(1) The Annual Performance Report is set out on the same basis as the annual Budget, it reports performance against the targets set out at the beginning of the year 2002. Each section contains a short performance summary and assessment at the front, supplemented by an essay providing additional background on some relevant aspect of Defence related activities during the year.

(2) The annual Budget is designed deliberately to evolve over time to reflect emerging top level priorities and changes in the way the Department is organized. Consequently, although the overall structure remains consistent, there is inevitably a certain amount of change from one annual Budget to the next in the top level supporting objectives and the way they are bridged and presented.

(3) At the highest level the Sri Lanka Air Force's objectives are set out at the beginning of the year 2002. Therefore the Annual Performance Report starts with a summary of performance as of  $31^{st}$  December 2002 against the targets set in the beginning of the year 2002. The Spending Review is provided throughout the report.

#### b. Section Two: Departmental Appropriation Accounts 2002

(1) The Department is required to prepare Appropriation accounts for each financial year detailing the resources acquired, held, or disposed of during the year and the way in which it has used them. The Appropriation Account is prepared on a cash basis in accordance with Financial Regulation and Treasury guidelines.

(2) Appropriation Account must give a true and fair view of the state of affairs of the Department, the net resource Outturn, resources applied to objectives, recognized gains and losses, and cash flows for the financial year. The Accounts are audited by the Auditor General and supported to ensure that the same are true and fair and properly prepared. The Departmental Appropriation Accounts for 2002 together with the Auditor General's certification are attached.

# 7. DEPARTMENT'S ANNUAL PERFORMANCE REPORT FOR THE YEAR 2002

#### a. <u>Financial Review</u>

Total Defence expenditure during the year 2002 was sum LKR Mn 8,918.13. Overall defence expenditure in 2002 remained within the total provision voted by Parliament and the Control totals set by the Ministry of Finance and Planning of Sri Lanka (Treasury).

#### b. <u>Financial Administration</u>

#### (1) **Recurrent Expenditure**

Sri Lanka Air Force estimated a recurrent expenditure of LKR Mn 7,366.42 for the year 2002. The total estimate was expected to be funded through the Government allocation. The total estimated expenditure submitted to the treasury was in respect of the following expenditure items:

	LKR (Mn)
Personal Emoluments	3,034.72
Other Recurrent Expenses	4,331.70
Total	7,366.42
Revised (supplementary) Recurrent provision	0.00

#### (2) Capital Expenditure

The Sri Lanka Air Force planned for an initial capital provision of LKR Mn 2,606.50 with a view to provide the necessary infrastructure facilities, acquisition of capital assets and capacity building for the Sri Lanka Air Force. However, with the supplementary provisions the total capital grant approved by the Treasury was LKR Mn. 2,606.50

Accordingly, the revised capital provision for the year 2002 was as follows;

	LKR (Mn)
Original provision Supplementary provision	2,606.50 0.00
Revised Capital provision	2,606.50

#### (a) Rehabilitation & Improvement of Capital Assets

Sri Lanka Air Force initially requested for a capital grant of LKR Mn. 734.50 for the Rehabilitation & Improvement of Capital Assets during the year. The provision for the year 2002 has decreased by 4.11% compared with provision for the year 2001.

#### (b) Acquisition of Fixed Assets

The Sri Lanka Air Force initially planned to acquire fixed assets amounting to LKR Mn. 1,872.00 mainly to provide equipments, furniture's and acquisition of heavy machineries. The Treasury approved an initial allocation of LKR Mn. 1,872.00 for acquisition of fixed assets. Accordingly, the grant for the year 2002 has decreased by 7.96%, compared with grant of year 2001. The above supplementary provision was utilized to meet the urgent requirements of acquisition of fixed assets for the SLAF.

# c. The Expenditure against provisions under categories of recurrent expenditure.

#### 9. CONCLUSION

During the year 2002, the SLAF performed efficiently and achieved a total of 1,916.10 flying hours, out of which 10,346.11 hours were operational flying. On logistical support role for the troops deployed in North & East a total of 351,309 passengers and 5,014,768 Kilograms of cargo were airlifted. Effective support was provided to the ground troops positioned in the North & East and deployed its acquired technologies effectively. The void combat activities due to cease fire agreement were made to good use by emphasizing on training and rehearsals to improve the standards and readiness level. In addition to Ground Defense of Bases/units and security of airfields in operational areas, Air Force troops were also deployed in providing security at the MRS and in Morawewa, Kappalturai, Marble Beach and the FDL's at Poovearasankulam. Air Field Construction Wing was established on 22 June 2002 for the purpose of construction, Rehabilitation and Maintenance of Airfields and associated structures in the SLAF. The SLAF continued to maintain high standards by adopting total quality management, which in turn, enhanced the efficiency of all the entities in the SLAF.
