<i>Total number of times the Commission ordered/directed that information be provided (No. of successful appeals in favor of the appellant)</i>	00

10. Information Management and storage of records.

<p>10.1. Please provide details of the information management and storage system?</p>
<p>Parliament has implemented several Information Management Systems under its e-Parliament strategic initiative including Administrative and Legislative application systems. As at today, over 34 applications are being used in Parliament.</p>
<p>10.2. Was the system updated during the year? If yes, please provide details</p>
<p>Yes, Parliament continuously updates the system to meet the current requirements in terms of user requirement, management and technical needs of the organization.</p>
<p>10.3. Provide details of the way in which records are stored? (e.g. record room, electronic data bank with/without documentary back-up, on site/off site)</p>
<p>Every office has its own record management system for smooth functioning of the Secretariat and the Record Keeper takes custody of all files and other documents periodically discharged from various divisions. Apart from that, Digital Records are stored on database servers locally and off-site.</p>
<p>10.4. Are the records in storage referenced, indexed and stored in an easily retrievable manner?</p>
<p>Yes. All the records are indexed and easily searchable.</p>
<p>10.5. Provide details of improvements or changes were carried out during the year to the indexing and referencing system referred to above</p>
<p>A Document Archival System for the Library of Parliament is maintained.</p>
<p>10.6. On average how much time is required to search and produce a record that is in storage?</p>
<p>Intranet/Parliament website/Parliament Mobile APP are providing online search facility which can be done within few seconds. Hard copies of the documents can be found within few minutes.</p>
<p>10.7. In case of physical storage, are the records stored on-site, off-site or both?</p>
<p>The records are stored both on-site and off-site.</p>
<p>10.8. Have you provided for maintaining of existing records (up to 4th August 2016) for 10 years and new records (after 5th August 2016) for 12 years? After the implementation of Document Management System, existing and new records can be maintained digitally.</p>

10.9. Have you made budgetary provision for information storage and management?
Yes; A Budgetary Provision was made for a server and SAN (Storage Area Network) by USAID.
10.10. If records are not digitally maintained, please indicate what steps have been taken during the year or proposed to be taken to migrate records to a digital format?
The Document Management Information System and Document Archival System are being implemented.
10.11. If information is stored digitally, is it done by the Public Authority or an external entity?
It is done by the Information Systems and Management Department of Parliament.
10.12. Are digitally stored data/records accessible via the internet?
Yes. Most of the digitally stored data/ records are uploaded to the official website of Parliament.
10.13. If yes, is network security updated at least once a month?
Yes, Network security is updated continuously.

11. What suggestions do you have to remove constraints and improve the practices relating to the maintenance, management and destruction of records?

As stipulated in the Section 7 of the Right to Information Act, No. 12 of 2016 all the records are preserved and maintained and majority of those records are also digitally maintained. With the expansions of the work of the Secretariat, the major difficulty faced is with the lack of the storage space for information material either as hardcopies or on electronic devices. Therefore, it is timely for introducing the best practices on maintaining, managing and destructing those materials, considering their contents.

12. What facilities are available to the citizens for obtaining information? Please give details, including any improvements carried out during the year

- ❖ As per the Act, a Designated Officer and two Information Officers have been appointed and the Special Unit has been maintained to facilitate for RTI requests received by the Parliament Secretariat. Dedicated e-mails were also made available beside the telephone numbers of the relevant officials which are also published on the Parliament web site.
- ❖ All information pertaining to the procedure for making a request for information have been made available on the Parliament website including the details of requisite fees.

- ❖ If a person wishes to make a request which relates to the life and personal liberty of a citizen, can coordinate with the responsible officer in the RTI unit established in Parliament for this purpose of whom the contact details are also available on the Parliament web site.
- ❖ Parliament web site is a key tool of providing both administrative and legislative information to the public in a more proactive way which was upgraded to provide more information and is now periodically updated. The web site has trilingual accessibility enabling information available to the citizens of the country. Information available on the website is easily accessible with minimal number of clicks and information formats supported for majority.

13. How much fees were collected by the Public Authority during the year through information requests?

Rs. 5112.00

14. What suggestions do you have for improving the effectiveness of the regime of transparency?

Improvements within your Public Authority

It is useful if more awareness could be raised among all the staff members by changing their perception positively about the importance of the right to information process to enable more productive information is provided to the requester. At the same time, it is required to provide more training opportunities for the officials directly dealing with handling RTI requests, on the accepted procedures followed by similar institutions and countries. Apart from the context of handling requests, trainings may be provided to all the officials as to how records should be maintained to facilitate the RTI process, which eventually will improve the effectiveness of the day to day work.

Improvements in general

More awareness programmes can be conducted at Divisional Secretariat level to enhance the knowledge of people on the RTI Act, especially in remote areas. Maintaining an informative and up-to-date website is of immense importance for the public authorities that enables the public to easily access information at any time saving public money and time.

15. Any other information you wish to provide or comments you wish to make?

- In order to ascertain that the information is requested by a citizen of Sri Lanka it is suggested that the relevant forms be updated to obtain the NIC number or relevant identification information of the requester.
- The Fees Schedule should be amended in order to increase the charges.
- The time frame may be amended facilitating public authority giving more time to provide the information.
