## **Preamble**

The Ranaviru Sewa Authority was established by the Parliamentary act of no 54 1999. Since its inception to date in the 12 years of existence the Authority has marched forward overcoming various obstacles and difficulties during this limited period of time but gained huge experiences that are incomparable. There are a lot of unique reasons for the emergence of the Ranaviru Sewa Authority when one looks into its functions. The functions of the Ranaviru Sewa Authority are really supreme in the context of provision of a strong helping hand for the continuation of the future lives of children, wives and parents of the gallant war heroes who sacrificed their lives or those missing or lost their limbs in the fight of liberating our motherland from the cruel terrorism that was under the influence of specially both local and overseas conspirators and with a view to protect the liberty of the people and the country, their dignity, sovereignty and the territorial integrity.

During the year 2011, the Ranaviru Sewa Authority implemented a number of projects and programmes to discharge this supreme functions. I state with gratitude to all those who supported in this endeavor that it reflects the collective efforts of all of us rendered for the provision of the **significant service** for the Ranaviru community amidst various difficulties.

Focus was made during this year on organizing programmes of the Ranaviru Sewa Authority that did not hinder to the corporate plan and the working programme of the Authority. I am confident that all the experiences we had during this period would be very useful to achieve a more systematic and constructive progress in the coming year.

To reach the expected height in performances of an institution will depend on the parallel functioning of namely three areas of functions of the institution, the team and its personnel who make arrangements to make the functions a reality. To elaborate, due to the non-identification of the role and inability to make it a success through collective efforts causes divisions in the group. Development of such divisions in an institution may result in a negative impact on the whole functioning of the institution, following a breakdown of the trend of satisfying individual members of the group.

We in the Ranaviru Sewa Authority, have understood this situation clearly and have made arrangements to discharge the functions of the Authority systematically. This will result in the morale of the individual rising to high a level while mobilizing the collective efforts of the staff as a specific objective to achieve next year.

The most important step that has been initiated in this regard is the reorganization of the Ranaviru Sewa Authority staff to make that structure more constructive and suit the modern requirements. Arrangements are being made to implement this in 2013.

Our expectation of following this positive approach is to execute the huge responsibility of the Ranaviru Sewa Authority unfailingly. Furthermore successfully achieving development programmes that are being carried out with a view to building a free and independent country as expected by his Excellency the President Mahinda Rajapakse whose vision is making our motherland the miracle of the Asia, and supporting Defence Secretary Mr. Gothabaya Rajapakse's endeavors in making that goal a success

Active cooperation of all members of the Management Board and the staff of the Ranaviru Sewa Authority is sought, as in previous years, in the future too for this noble task.

Padma Wetthewa  
Chairperson  
Ranaviru Sewa Authority

- The majority of applicants who applied for the medical relief loan programme during the last years were war heroes in service . There is a decline in the of number of requests for Medical Relief Loans received this year in comparison to other years . This is due to Army welfare unit introducing a special medical loan programme in 2011 for members of the army in service.

Reasons for non-obtaining loans by some/ certain applicants half way during the process .

01. Inadequacy of remaining service period of most of the medical relief applicants being an obstacle in releasing loans.

## **111. Educational scholarships project**

### Introduction

The Educational project of the Ranaviru Sewa Authority is operative in view of helping the children of war heroes who have died, missing, retired disabled while engaged in action for safeguarding the country and the people, and those who are presently in the services, to continue their education up to their higher education successfully

The scholarships categories

1.Ranaviru children savings investment scholarships

This scheme commenced in 2005 in collaboration with the National Savings Bank .This covers the Ranaviru children who receive education in year 6 to the GCE (O/L) .These scholarships are awarded to ensure a saving of Rs.12000/= being available for each child concerned for their -GCE O/L and higher education.

### Introduction

Under this scheme the Ranaviru Sewa Authority opens saving accounts for children who pass the year 5 scholarship examination with a higher potential of entering into this scheme in the years to come when they will be studying in the GCE O/L and A/L classes and makes initial deposits in their savings accounts as a pre- investment .The amount is commuted to ensure that a beneficiary child will receive at least Rs.500 per month when studying in the GCE O/L and A/L classes

The money is deposited in a way, that the child will have a savings account of Rs.12000/=when he or she comes to the GCE O/L class. The amount being deposited varies based on the class the child is studying. Accordingly the monthly deposit on behalf of a child

in year 6 is Rs.250 per month for a period of 4 years. For a year 7 child it is Rs.333.33 for a period of 3 years and year 8 Rs.500 per month for a period of 2 years. For a year 9 child it is Rs 1000/= per month for a period of 1 year.

It also expected to improve their savings habit as this system allows the account holder to make private contributions to it. The Ranaviru Sewa Authority under its scholarships project contributes to share the expenses incurred by the children in GCE O/L and A/L classes by granting Rs. 500 monthly. This money is meant for the education of the children concerned and not for the enhancement of the family income.

Most of the Ranaviru children presently belong to the lower age group and they enter the higher classes at the time of retirement of the War hero after completion of his service period of 12 or 22 years. Further with the retirement of the War hero the family income declines. This happens at a time they need much money for the education of the child.

It is imperative, to be prepared with , some form of investment being made for these children considering these facts. As an initial step, this programme covering Ranaviru children who have shown remarkable results , is carried out in collaboration with the National Savings Bank, a leading state bank in the saving sector.

The Ranaviru Sewa Authority during a period of nearly 11 years has been putting its fullest strength with dedication to carry out successfully its development programme, that has been designed to pay the gratitude and the honor of the nation practically and making an example to others, to the War heroes who have done a huge service for safeguarding the country always at the cost of their lives or making numerous sacrifices. The motive of the Ranaviru Sewa Authority is making the tomorrow of these respectable children a better and secured one. We consider that the steps taken by the Ranaviru Sewa Authority to make its action plan more result oriented for accomplishing its aim of meeting needs of war heroes is an achievement.

One remarkable feature that was highlighted in 2011 was the implementation of hither to scattered project fields bringing under five principal categories in conformity to the vision of paying gratitude of the nation to the ranaviru name. We believe that as a result of this action we were able to fulfill the necessities of war heroes more effectively. The staff of the authority while working with minimum facilities have set an example by extending their services with dedication to achieve goals. Since we have taken several steps to improve the status of Office building and staff we expect that we would be able to provide more efficient and useful service for the Ranaviru community.

The Ranaviru Sewa Authority also focuses on improving skills and education of Ranaviru children. Accordingly actions were initiated to advance the Ranaviru children's language knowledge particularly English knowledge, cultural programmes were conducted in Ranviru villages with a view to improve aesthetic skills , and streamlined computer courses for them. #### Auditor's Responsibility

---

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Sri Lanka Auditing Standards. Those Standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. Sub-sections (3) and (4) of the Section 13 of the Finance Act, No. 38 of 1971 give discretionary powers to the Auditor General to determine the scope and extent of the audit.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

#### Basis for Qualified Audit Opinion

---

My opinion is qualified based on the matters described in paragraph 2.2 of this report.

1 Qualified Opinion

#### 4. Operating Review

##### 4.1 Performance

The following observations are made.

##### (a) Granting Loans and Assistances

- (i) It was observed at the comparison of the action plan of the Authority for the year 2011 with the performance for granting loans and assistance as at 30 September 2011 that the achievement of relevant target was at very low level. Particulars are given below.

<u>Category of Loan</u>	<u>According to the Action Plan</u>		<u>Performance</u>	
	<u>Quantity</u>	<u>Value</u> Rs.	<u>Quantity</u>	<u>Value</u> Rs.
Self employment loan	20	2,000,000	06	560,000
Three wheeler loan	200	60,000,000	01	300,000
Self employment assistance	40	1,200,000	18	540,000
Housing Assistance	150	15,000,000	13	960,000
Disabled equipment and assistance for necessities	300	17,310,000	122	4,642,083

- Systems including steps from start to end of the procedure had not been prepared in respect of granting loans and assistance on instalment basis, presenting performance report and other important conditions thereon. A proper internal control system had not been established for efficient performance and follow up action by identifying responsible officer for the relevant steps in respect of each procedure.

- Cheques valued at Rs.854,250 had been received back by the Accounts Division of the Authority in 71 instances to extend the period of validity due to delay in handing over of cheques to the beneficiaries which were given to the regional officers for issuing to the beneficiaries. Accordingly, it was observed that the Ranaviru welfare activities had not been properly carried out.
- Although Coordinating Officers had been appointed, the loan instalments amounting to Rs.163,804 receivable from 4 persons who had obtained loans under the Concessionary Loan Fund had not been recovered from November 2011.

(b) Collection of Data and Information Relating to Soldiers and their Dependents and Preparation of Register.

---

The following observations are made.

- (i) Although register consisting of information relating to members of the soldiers and their dependent should be prepared and maintained in an up to dated manner in terms of Section 6 of the Act, the Authority has failed to prepare and submit such a register up to now.
- (ii) The Authority had not possessed a register or a system enabling to obtain information instantly regarding the benefits given to the soldiers up to now.

(c) Ranaviru Village Programme

---

The following observations are made.

- (i) Infrastructure facilities necessary to the villages had not been carried out according to the supplies plan.
- (ii) As a result, the Ranaviru families had abandoned the occupation and refuse to come there for residing and action had not been taken to carry out the relevant follow up action and minimize this situation.
- (iii) Although it was planned to construct community halls at the Ranaviru villages at the rate of 08 halls per year, construction works had not been carried out accordingly. A situation of inability to complete the construction works already commenced even after elapse of long period had arisen due to lack of proper

plan in this regard. Construction of buildings of the community hall at the Ibbagamuwa Ranaviru Village and the preschool in the Kekirawa village can be cited as an example.

(d) Progress of the Strengthening Body and Mental Unit

-----  
Provision made for the Psychological Project for the year 2011 amounted to Rs.5,020,106. Out of this provision, only a sum of Rs.1,524,418 had been spent up to 30 September 2011 and it was observed that the following matters expected to complete could not be completed due to this underutilization.

- (i) It was unable to recruit a suitable officer up to now for the post of Psychologist existed in the approved cadre of the Authority. Accordingly, the Authority has failed to carry out the expected objectives of the Authority by planning and implementing a suitable programme to safeguard the mental balance of soldiers who have subjected to the mental stress.
- (ii) There was no a work plan to discuss with the dependents of the Ranaviru families regarding their psychological problems and to identify the relevant problems and make awareness thereon to the officers responsible to the projects.
- (iii) Programmes such as Psychological Programme introduced middle of the year 2011 for strengthening the psychological level of the dependents of the soldiers, conducting of counseling, providing training to the consultants in the private institution and coordination, taking action to give sensitivity for private society soldiers had not been implemented during the year 2011.

(e) Lands Project

-----  
The following observations are made.

- (i) Even though a period from 2 years to 8 years had elapsed after procurement of 9 lands in extent of 65 acres received by the Authority through Divisional Secretariats to provide among soldiers under Lands Project, action had not been taken to distribute these lands among the eligible soldiers.
- (ii) Seven lands in extent of 39 acres received by the Authority from various private parties to provide among the soldiers for welfare of the soldiers had remained for more than 2 years without utilizing for the relevant activities.

(f) Progress of the Social and Cultural Unit

The following observations are made.

- (i) Number of programmes planned to implement during the year under review stood at 13 and a sum of Rs.21,080,868 had been estimated in this regard. However, a sum of Rs.12,138,886 had been spent up to 30 September 2011 and it represented 57.58 per cent of the estimated provision.
- (ii) Planning had not been made by identifying timetable and place for conducting programmes such as leadership training workshop, meeting of children who dedicated their parents, society conference and annual awareness programme, district awareness programme, holding of membership programme, programme series, programme for parents of the soldiers and children programme.
- (iii) Out of a sum of Rs.12,350,000 provided under this project for granting financial assistance for members of the societies on urgent distresses, a sum of Rs.12,070,000 had been spent. Accordingly, it was observed that even though the financial assistance and granting of loans had been made, attention drawn on psychological problems was at very weak level.

4.2 Management Inefficiencies

The following observations are made.

Activities and Internal Control Procedures relating to the Projects

- (i) Even though notes relating to works expected to implement for each project and procedure followed thereon and internal control procedure in this regard had been requested in audit in several instances from 16 November 2011, the Authority was unable to submit these for audit up to now.
- (ii) Although it was directed by the Committee on Public Enterprises to prepare a Corporate Plan properly for the Authority, it had not been completed by the Authority up to now. Further, identification of dates and places had not been properly made in the Action Plan for the year 2011.

- (iii) According to the above observations, it was observed that proper procedure, functions and control system had not been identified relating to creation of Ranaviru welfare by the Authority by spending Government funds and accordingly, preparation of plan in this regard was at very weak level.

#### 4.3 Operating Inefficiencies

-----
