

FOREWORD BY THE VICE CHANCELLOR

It is with much satisfaction and a sense of achievement that we, as the Sabaragamuwa University of Sri Lanka look back at the Year 2009. This is primarily due to the work-oriented culture that we have promoted within this institution which in turn has yielded substantial gains within the period under review, in human and material terms.

As this report shall amply portray, the Mission of the University in producing men and women with 'practical skills and positive attitudes' has clearly been the focus of its academic, administrative and the non-academic staff throughout 2010. Challenges were many; resources few. But innovative approaches and positive commitment have enabled us to be path - finders of modern tertiary education.

The report takes into account in particular the University's ambitious projects on infrastructure – new building facilities in the form of lecture-theatres and hostels, construction of new laboratories, also the availability and welfare of aptly qualified and resourceful staff with no small potential for the future.

Infrastructure facilities of the university also improved by commencing constructions for

- Second stage of the building complex of the Faculty of Management Studies for Rs. 98 million.
- First stage of the building complex of the Faculty of Social Sciences & Languages for Rs. 98 million.
- Students' cafeteria and the library building of the Faculty of Agricultural Sciences for Rs. 48 million.
- Two water tanks with the capacity of 60,000 galloons for Rs. 6 million.
- Water project to supply 125,000 galloons of water per day for Rs. 11 million.
- Stage III of the Agri farm building at Mungastenna for Rs. 9.8 million.
- Completion of Men's hostel (Sinharaja IV) for Rs. 19 million
- Construction of Open Air Theatre for Rs 8.2 million
- Construction of Garage for university vehicles for Rs. 1.7 million.
- Construction of Boundary Wall at the main entrance of the university for Rs 5.2 million
- Establishment of Printing Unit for Rs. 0.5 million.

I take this opportunity to thank the Ministry of Higher Education, the University Grants Commission, government and private sector bodies, most of all my staff, all of whom have stood by the University during 2009 in countering our challenges. Their unwavering support shall further enable us to be the pioneering change-agents in the Sri Lankan sphere of intellectual enterprise in the years ahead.

Prof. Mahinda S Rupasinghe
Vice Chancellor

1. VISION STATEMENT

To be an internationally acclaimed Centre of Excellence in Higher Learning, producing Dynamic Leaders and Nation Builders to guide the destiny of Sri Lanka

2. MISSION

Our mission is to search for and disseminate knowledge, promote learning, research and training to produce men and women proficient in their respective disciplines, possessing practical skills and positive attitudes, enabling them to contribute towards the manpower requirements of the nation.

The University will be a centre of excellence for research and development for Sri Lanka in general and the Sabaragamuwa Province in particular.

3. GOALS

Be a centre of excellence in higher learning.

Produce graduates in keeping with the development needs of the country.

Enhance the development of the personality of staff and students.

Achieve the status of an internationally acclaimed regional institute of research and development.

Enhance continuing professional programme in areas of national relevance.

Be a resources centre to enhance the quality of life in the region.

4. THE UNIVERSITY

4.1 INTRODUCTION

The Sabaragamwa University of Sri Lanka is situated on the left of the way to Samanalawewa reservoir and is over 160 kilometers away from *Colombo – Badulla* highway. The University comprises of five (05) Academic Faculties, namely,

- Faculty of Agricultural Sciences
- Faculty of Applied Sciences
- Faculty of Geomatics
- Faculty of Management Studies
- Faculty of Social Sciences and Languages

In addition to these five Faculties, there are six study centers. They are as follows:

- Centre for Computer Studies
- Agri – Business Research and Development Centre (ABRDS)
- Career Guidance Unit
- External Degree Programmes and Extension Services Unit
- Staff Development Centre

In the year 2009, five faculties offered twenty eight BA / B.Sc. Degree Programmes, based on the Semester or the Course Units System of study, to a student population of about 2378. The annual intake of the University is in the region of about 265 students. Apart from some of the Degree Programmes offered by the Faculties of Applied Sciences and Social Sciences, which are of three-year duration, the rest extend over to a four-year period. The medium of instruction of all science – based programmes is English. Wherever possible, the Lecturers strive to assist undergraduates by presenting the relevant course materials in Sinhala or Tamil medium as the case may be. The students reading for a degree at the Sabaragamuwa University could also select optional courses even from another Department within their own Faculty (inter – departmental courses), while following the major and minor subjects.

Apart from all these Faculties, Study Centers and Units, the University has an Affiliated Academy named Sri Lanka Military Academy (SLMA). This academy situated at Diyatalawa prepares army cadets for the Degree of Bachelor of Military Studies awarded by the University.

5. FACULTIES

5.1 FACULTY OF AGRICULTURAL SCIENCES

NAME OF THE FACULTY: Faculty of Agricultural Sciences

MISSION: The mission of the Faculty of Agricultural Sciences is to search for, and disseminate knowledge in the sphere of agriculture. The Faculty produces graduates in Agricultural Sciences who are proficient in the Sciences/disciplines and practical skills in agriculture to contribute towards the manpower requirements of the Nation. The Faculty will strive to be the nucleus for socio-economic enhancement of the communities in geographic proximity to the Faculty.

BRIEF HISTORY: The Faculty of Agricultural Sciences, which was originally located at Rahangala, now functions at the main campus. This is due to the cancellation of the shifting of the Faculty by the UGC on 13th February 2001, which had been permitted by its letter dated 30th January 2001. However prior to the cancellation of the shifting order was issued the students had moved to Belihuloya along with the Academic, Administrative and Non Academic Staff leaving behind all movable and immovable properties of the Faculty, such as the library, laboratories with equipment and chemicals, office with documents and equipments, the farm with livestock, vehicles and machinery etc., to a value of over Rs.100 million. However, university was able to bring most of the items from the former Faculty to Belihuloya premises last year.

**DEGREE PROGRAM
OF THE FACULTY :**

The Faculty of Agricultural Sciences offers B.Sc. (Agricultural Sciences) program as per the old curriculum and a new program of four year B.Sc. (Agricultural Sciences and Management) as per the revised curriculum introduced in 2008.

The Faculty is composed of 3 Departments of study as Agribusiness Management, Export Agriculture and Livestock Production. The Department of Export Agriculture offers 2 academic modules as Plantation Agriculture and Commercial Horticulture. The Agribusiness Management is unique for the Faculty of Agricultural Sciences of Sabaragamuwa University of Sri Lanka.

Duration of the Degree Program:

Four years of full-time study is considered as a minimum requirement to acquire the necessary knowledge and skills required for B.Sc. (Agricultural Sciences and Management) awarded by the Faculty. The four years consist of eight semesters of 15 weeks each.

Credit/Units

The total minimum requirement of credits to graduate is 120 as specified by the quality assurance and accreditation council of Sri Lanka. Our proposed curriculum comprises of 126 credits.

Structure of the Study Programme

The new curriculum comprises of a core program where the principles in knowledge, skills and attitudes necessary for a graduate in agricultural sciences and management are to be achieved. The specialization programmes offer flexibility for students to pursue a subject area of his/her choice for advanced training. The core programme offers 66 credits while the specialization programme offers 60 credits thus totaling to 126 credits which must be completed for graduation.

Medium of Instruction

The medium of instruction at the Faculty is English. Hence the present English curriculum has also been revised in order to cater to the needs of all stakeholders. A total of 390 contract hours have been assigned for English in order to address the four language skills; reading, writing, listening and speaking. English is offered as a subject during all four years.

Department of Agribusiness Management

The new curriculum of the Department of Agribusiness Management is geared to develop students' business, entrepreneurial and analytical skills to produce agribusiness managers and agro-entrepreneurs of the future. Graduates who have specialized in Agribusiness Management have knowledge and skills to manage agro-industries and other business at any scale. They are capable of making decisions at middle and top managerial levels in the disciplines of general management, marketing, agribusiness, human resource management and economics. They are also capable in disseminating knowledge as agricultural extension managers. Our graduates will be successful and capable of managing their own ventures as the new curriculum caters to the needs of development of entrepreneurial talents.

Department of Export Agriculture

The mission of the Department is to produce graduates who possess knowledge and practical skills in advanced technologies of crop husbandry, natural resource management and environmental sciences and are capable of managing horticultural and plantation operations of any scale.

Students who have chosen the Department of export agriculture will specialize either commercial horticulture or plantation management. Graduates who specialized in these disciplines are will equipped with knowledge and skills in modern techniques of commercial horticulture and plantation operations. The diverse stream of courses offered by the department also focuses the global interests such as under-exploited crops, biotechnological approaches in agriculture, sustainable agriculture, land use planning and climate change. Inclusion of an intensive farm practice course and an industrial training program at reputed agro-industries to the curriculum is an advantage for enabling our graduates to play a pivotal role in the commercialization process in agriculture. Moreover, special emphasis is given on leadership and personality development to enhance their skills and attitudes to face the challengers of the dynamic business environment.

There are numerous employment prospects in the fields such as, private sector agro industries, public sector, research and development, international organizations, academia and consultancy.

Department of Livestock Production

The Department of livestock production strives to produce future leaders and innovators who can bear major responsibilities and perform roles for the enhancement of livestock sector.

The Department offers courses related to animal husbandry, production and processing of animal products. The undergraduates are given theoretical and practical knowledge in all the aspects in livestock production and the farm practice course and

the industrial training programmes in this department specially prepare its graduates to face the job market in the field of livestock production.

It is possible for undergraduates to gain real farm experience in management of livestock species in the farm practice course at the Faculty farm and students are exposed to the industrial environment in livestock related government and private institutions at their industrial training period during the final semester of the degree programme.

Graduates who specialize in livestock production have job opportunities in related industries such as dairy production, aquaculture (Shrimp and aquarium farming), meat science, animal feed (nutrition) and poultry production and as a result, the employability of livestock graduates lies at higher rate with minimum waiting time for the first job.

The livestock specializing undergraduates also get the opportunity to engage in various community service activities such as advising livestock farmers on prevention and control of livestock diseases in farms, conducting training programmes for livestock farmers, school children and the general public in livestock related subjects. The undergraduates develop their leadership qualities, self confidence and team work abilities through these activities.

5.2 FACULTY OF APPLIED SCIENCES

VISION

The Faculty has its own vision compatible to that of the University corporate plan for nation building through its products. The vision of the Faculty is to extend its facilities and services to develop as a premier centre for higher education and advanced research in the field of technology, thus enabling students following the degree programme to obtain a sound knowledge and acquire multi-disciplinary skills.

MISSION

The mission of the Faculty is to search for and disseminate knowledge in the areas of learning that will make a useful contribution to the development of critical manpower requirements of the nation; contribute to education, science and technology and socio economic upliftment of the communities of the nation.

THE HISTORY OF THE FACULTY OF APPLIED SCIENCES

The Faculty of Applied Sciences of the Sabaragamuwa University of Sri Lanka was initially started as the Buttala Affiliated University College (BAUC) on 21st June 1993. The BAUC offered two diploma courses, one in Food Science and Technology and the other in English Language. With the elevation of the Affiliated University Colleges to fully fledged national Universities in early 1996, three Affiliated University Colleges; Sabaragamuwa Affiliated University College, Uva Affiliated University College and Buttala Affiliated University College were amalgamated to form the Sabaragamuwa University of Sri Lanka and the BAUC became the Faculty of Applied Sciences of the Sabaragamuwa University of Sri Lanka.

With effect from March 2008, the faculty has been relocated in the main campus premises at Belihuloya.

DEGREE PROGRAMMES

The Faculty comprises three departments, Department of Natural Resources, Department of Physical Sciences and Technology and Department of Food Science and Technology.

The Faculty offers B.Sc. (special) degree programmes in Food Science and Technology, Environmental Sciences & Natural Resource Management, Chemical Technology, Computer Science & Technology, Applied Physics, Computing and Information Systems, Sports Science and Management and Physical Education for the students who gain direct entry to the faculty on the basis of their performance at the GCE (A/L) Examination. The degree programs are designed to be four year degree programs with an exit point at three years for the students who graduate with a general degree in B.Sc. in Physical Sciences and Technology and Environmental Sciences and Management. The rest of the degree programs are strictly four year degree programs.

The selection of the students for the B.Sc. degree programmes in Computing and Information Systems, Sports Sciences and Management and Physical Education is performed on the basis of the G.C.E. (A/L) results as well as the performance at a selection aptitude test. The students who wish to get enrolled for the degree programmes in Sports Sciences and Management and Physical Education were also required to face an examination for physical fitness in addition to the selection test.

All degree programs offered through the faculty are designed to cater to the current job trends and demands both nationally and internationally. They are conducted exclusively in English. These degree programme are designed as interdisciplinary by incorporating subjects as Computer Science, Economics, Management, etc. that has facilitated our students to perform well once graduating serving a wider field than being specific and narrowed to than specialized field.

Apart from the academic activities the Faculty also contributes to the development of the community and the nation through extension and knowledge Dissemination programmes. The staff and the students participate in such activities annually.

Department of Food Science and Technology

The Department of Food Science and Technology was established in 2003 though the B.Sc. special degree in Food Science and Technology was offered under the Department of Natural Resources since the inception of the Faculty in 1996. The range of the study area includes Food Science core, General Sciences, Environmental Science, Statistics, Computer Sciences, Marketing, Economics and courses in career development. The degree program is designed for the students who wish to pursue professional carriers in the field of food science and technology. The degree program has been designed so that the graduates could cater to the growing demand of the service of Food Scientists both in government and private sector. The degree also paves an excellent path for postgraduate studies in related disciplines of Food Science and Technology. At present the Department comprises of one professor, one senior lecturer, one lecturer, four probationary lecturers and one temporary lecturer. There are several eminent senior academics and industrialists who contribute their services by conducting lectures and practicals in there specialized fields.

Department of Natural Resources

The Department of Natural Resources of the Sabaragamuwa University of Sri Lanka was established in 1996 offering a B.Sc. General degree in Natural Resources. The degree program offered by this Department is designed to cater to the current job market in the fields of Environmental Protection, Natural Resource Management and Conservation, Biodiversity Conservation and Management, Environmental Advocacy and Ecology both in Sri Lanka and throughout the world.

In 2006 the Degree Programme which was initially offered as B.Sc. in Natural Resources a three year general degree program was upgraded and restructured to offer a Degree programme as Environmental Science and Natural Resources Management which has improved the job opportunities for the graduates. Currently the degree program is oriented in three major streams viz. Environmental Sciences, Conservation Biology and Earth Sciences with awarding two degree programs as B.Sc. (Special) in Environmental Science and Natural Resources Management – 4 years and B.Sc. (General) in Environmental Science and Natural Resources Management – 3 years. The degree also paves an excellent path for postgraduate studies. The staff of the department consists of one senior professor, four senior lecturers, two probationary lecturers and one temporary lecturer. At present two probationary lecturers are reading their Ph.D. studies overseas and the senior professor at present is contributing his services to the University as the Vice Chancellor of the Sabaragamuwa University of Sri Lanka. Many resource persons in specialized fields are invited in conducting lecture and practical courses for undergraduates.

Department of Physical Sciences & Technology

The Department of Physical Sciences & Technology conducts degree courses in three major disciplines; namely, Chemical Technology, Applied Physics and Computer Science & Technology. Mathematics, Statistics, and Management Studies, Accounts are conducted as supporting tools for the programme. The staff of the department consists of one senior professor in Physics, one Professor in Chemistry, two senior lecturers, six probationary lecturers and one temporary lecturer. The Department offers four degree programmes namely: B.Sc. (Applied Sciences) Special Degree in Chemical Technology (Duration: 4 years), B.Sc. (Applied Sciences) Special Degree in Computer Science & Technology (Duration: 4 years), B.Sc. (Applied Sciences) Special Degree in Applied Physics (Duration: 4 years) and B.Sc. (Applied Sciences) Degree in Physical Sciences (Duration: 3 years). All theoretical course units conducted by the department are heavily supported by a practical component which provides the preliminary experience to perform confidently. And also the Mini projects conducted throughout the third and the fourth academic years stimulate the students' creative and innovative thinking. The Final year project (research or industrial training) for one entire semester exposes the undergraduates to the working environment and provides hand on experience in industry before the graduation. The environment in the campus and the teaching programmes were all designed in a manner to establish this goal and also to produce specialists in their respective fields. Additionally, it is also creditable that the Department offers the only Degree in Applied Physics in the entire University System in the country

Computing and Information Systems Degree Programme

Though formation of the department is under process, the degree program in Computing and Information Systems has been started by the Faculty of Applied Sciences. The curriculum is specifically designed to produce skilled graduates both in Computing and Information Technology. The demand for the above degree programme has greatly increased thorough out the years and annual intake has reached the maximum capacity of 80 students per batch.

The introduction of the Department of Computing and information Systems would achieve the following objectives:

- a) To take the Sabaragamuwa University of Sri Lanka into the arena of technological innovative, especially in ICT.
- b) To prepare and mould students for the growing demand in ICT-intensive job market.
- c) To enable students from non-science-based study programs to follow optional course in ICT.
- d) To increase IT resources and infrastructure facilities in the University.
- e) To provide ICT training and consultancy services to the local community.

Sport Sciences & Management Degree Programme and Physical Education Degree Programme

Two degree programmes namely B.Sc. Special Degree in Sport Sciences & Management and B.Sc. Special Degree in Physical Education have been awarded since 2008 through the Faculty of Applied Sciences although the formation of the Department of Sport Sciences and Physical Education is under process. The courses of Sport Sciences & Management degree programme are specially designed to produce graduates with basic scientific sport skills and management skills required for today's teaching sports at primary, secondary and tertiary education levels and at other industries and organizations. The degree programme in Physical Education is specially designed to produce graduates who are competent the scientific basis of physical education activities and practices. The duration of the degree programmes are four years and at present there is a great demand for the degree programme which is significantly shown by the increasing number of student intake each year and at present the intake has reached the maximum capacity. The both degree programmes are well supported by practical activities and projects that has enabled to produce skilled and competent graduates within four years. The department also has many collaborations with sports organizations facilitating the students to participate in many national and international gaming competitions and coaching programmes. The staff comprises of one senior lecturer, four temporary lecturers. The service of eminent sport specialist are also obtained to conduct both practical and theory courses for the students.

Goals of the Faculty of Applied Sciences

Faculty of Applied Sciences of the Sabaragamuwa University of Sri Lanka has set the following goals for the year 2011:

- Improving the quality and of the undergraduate degree programmes offered by the Faculty through the implementation of quality assurance strategies recommended by QAA Board.
- Development of the teaching and research skills of the academic staff
- Development of the academic and soft skills of the students.
- Career development of the academic staff by enabling them for postgraduate studies and short – term training programmes.
- Improving social harmony through extension and outreach programmes.

ACHIEVEMENTS OF THE FACULTY

Department of Food Science and Technology

Achievements Institutional (National)

One of the students from the Department won the “Student of the year Gold medal” at the General Convocation 2010 of Sabaragamuwa University of Sri Lanka.

Four research papers of academic staff have accepted to be published in international journals.

Exhibit from the Department won the award “Most Commercial Viable Research Project” of the Pro Foods – Pro Pack Exhibition 2011.

Achievements Personal

Mr. M.C.N. Jayasooriya received a scholarship to study for his PhD under HETC Project.

Prof. K.B. Palipane received Presidential award for his research publications.

Department of Natural Resources

Established “Green Park” at Kumbalgama and it was opened by the Hon. Minister of Higher Education Mr.S.B.Dissanayake at 18th July 2010.

International

Awarded Common Wealth Academic Staff fellowship from the University of Glasgow, United Kingdom.

5.3 FACULTY OF GEOMATICS

Vision:

To be the Centre of Excellence for teaching, training, research and application of Geomatic Sciences for the sustainable development of Sri Lanka.

Mission:

To produce graduates in Surveying Sciences competent in Geodesy, Hydrography and Geographic Information Sciences, and dedicated to the management of land and ocean resources for national development.

Brief History:

The degree programme in Surveying Sciences initiated at the Sabaragamuwa University of Sri Lanka in 1997 under the Department of Surveying Sciences. The Department of Surveying Sciences was developed gradually and was upgraded to the Faculty of Geomatics on 23.08.2004.

5.5 FACULTY OF SOCIAL SCIENCES AND LANGUAGES

Vision:

The vision of the faculty is “to be a centre of academic and intellectual excellence for Arts Students so as to equip them to contribute productively to the nation in its path to prosperity”.

Mission:

The mission of the faculty is “to produce Arts Graduates equipped with essential knowledge, specialized as well as general, plus intellectual discipline, analytical skills and imagination that will enable them to contribute creatively in any sphere of employment”.

Brief History:

The Faculty of Social Sciences and Languages had its beginning at the same time, when the University commissioned her study programme in 1996. The Faculty initially possessed two departments of studies i.e. the Department of Languages and the Department of Social Sciences. The Department of English Languages Teaching came in to being in 2004 and the Department of Economics and Statistics was established in 2009. The faculty began its academic operations in November 1996 with the intake of students from the former affiliated University Collage, who were permitted, with their Diplomas in English, to study for a degree after two years. The Faculty started admitting students with Advanced Level qualification only from the year 1998.

The Faculty of Social Sciences and Languages prepares students for professional careers, by providing them with a broad understanding of the humanistic tradition in combination with a sound knowledge of subjects in several disciplines. Our degree programmes emphasize the ability to apply this knowledge to problems and tasks in the contemporary world of work. We strive to develop the capacity of students in independent and critical thought, logical analysis, effective communication, and informed participation in teamwork. Therefore, the Bachelor of Arts programme integrates classroom work and students' independent reading and writing with hands on research and project work.

Departments and Degree Programmes

The Faculty of Social Sciences and Languages consists of three departments that are responsible for the award of degrees, the **Department of Economics and Statistics** the **Department of Languages** and the **Department of Social Sciences**.

1. Department of Economics and Statistics

The Department of Economics and Statistics offers a three year Bachelor of Arts Special (Social Sciences) degree together with the following four year Special Degrees; Bachelor of Arts (Special) Economics and Bachelor of Arts (Special) Statistics.

2. Department of Languages

The Department of Languages and Department of English Language Teaching currently offer 09 subjects as follows; Sinhala (**SIN**), Tamil (**TAM**), English (**ENG**), Hindi Studies (**HND**), Chinese Studies (**CHI**) German Studies (**GER**) Japanese Studies (**JPS**), Journalism (**JRN**), Japanese Language (**JPL**), Computer Studies (**COM**).

The first six subjects mentioned above may be taken as Major or Minor Subjects. JPS is only offered as a major. The next three may only be taken as Minor Subjects at present.

3. Department of Social Sciences

The Department of Social Sciences offers a three year Bachelor of Arts Special (Social Sciences) degree together with the following four year Special Degrees; Bachelor of Arts (Special) Geography, Bachelor of Arts (Special) Political Science and Bachelor of Arts (Special) Sociology and Anthropology.

The students have the freedom to select subjects from any of these three departments, while the curricula of many of the subjects were designed to provide students with the option of selecting different courses even within a selected subject.

4. Department of English Language Teaching

The **Department of English Language Teaching** functions as a service Department for the entire University. The DELT was established in 2004 in place of the former English Unit (ELTU), in line with the academic emphasis the University places on English studies. It offers compulsory English Language course for the degree programmes conducted by the Faculty of Social Sciences and Languages. It is planning to offer a degree named Teaching English as Special Language”

Achievement of the Faculty

International Achievements

The staff of the Faculty of Social Sciences & Languages reached a standard level as researchers. Most of the members of the staff have presented research papers in national and international symposiums.

National Achievements

The staff of the Faculty of Social Sciences & Languages has contributed to national level seminars and workshops and has provided consultancy services for various institutions.

Institutional Achievements

1. IRQUE – QEF fund Batch -3

In response to the project proposal sent by the faculty to the IRQUE, the faculty received a **Rs.20 million** worth grant from IRQUE – QEF fund Batch -3 to improve the quality of the undergraduates. The faculty expenditure from the grant mainly focused on,

- Improvement of Teaching and Learning Process,
- Improvement of The Teaching Capacity in the English medium
- Improvement of Research and Analytical skills of the Students
- Improvement of Social behavior and attitudinal skills of students.

The faculty obtained modern teaching equipments, multimedia kits and office furniture from the financial assistance gained through the grant. The grant also contributed to the Faculty to develop its human resources by paving the path to provide training for both staff and students. The students were trained on cultural performance (30 students), on internet based learning (160 students), on Stress Management (40 students), on collecting data in the Sabaragamuwa Province (all the students in the Faculty). The faculty established a student counseling centre named “*Sith Arana*” with the support of academic staff for the benefit of all the students in the University.

- The Faculty organized workshops for its academic staff On,
- Counseling (20 academic staff members)
- High tech in Teaching (15 academic staff members)
- Technical Writing in English (15 academic staff members)
- Teaching in English Medium (25 academic staff members)
- Short overseas training on English literature and culture, English writing skills and Social Work and SPSS (12 academic staff members).

2. Curriculum Revisions

Two experts were appointed to revise and develop the curricula of the Faculty in 2008. Curriculum revision process of the Faculty was completed in 2009. The Department of Languages designed four year special degree programmes for all the languages courses. Six months internship programme for students, compulsory English and CIT together with some essential general subjects were incorporated in the new curriculum and the faculty decided to implement the new curriculum for 2011 intake.

3. New Faculty Building Complex

Construction of the second stage of the new faculty building complex has been completed in 2010.

6. TEACHING RESOURCES

6.1 LIBRARY

Profile:

The Sabaragamuwa University Library supports to encourage the users to fulfill their main objective of developing knowledge and current information for innovation purposes by uplifting the literacy through learning and research within the university by self studies and self improvement.

The Information Resource Centre strives to provide a vibrant environment for teaching and learning within the campus which meets the current information needs of staff and students while facilitating the acquisition of the information skills that form the basis of lifelong learning.

The Academicians were engaged in a research oriented environment during this year is a fruitful way of showing their innovations through the guidance of the learning centers. The Academic staff has been motivated by the authority with granting financially for their research works. Therefore the Library was activated by helping them through providing relevant information in the correct time. The Library has served for the internal community as well as the researchers from out side of the University too. Comparative to other University Libraries; the University Grants Commission has given fullest support to the library by providing financial allocation for this year. Under that, we received 8 million rupees although the government was in a drastically situation of minimum budget allocation. Within this condition the SUSL library managed to purchase the useful and most important books and periodicals on time.

Goals

Goals of the year 2010

The SUSL Library has step up to develop as an electronic Library what we target to do so. Through the 'LIBSYS' Software; in future the SUSL Library can keep the contacts within the peer groups as well as the International sites too. This software supports to make all the information to retrieve by web OPAC being developed through the website of the Sabaragamuwa University. Now it has been developed to share the resources available through online. The library is able to do its official correspondence through e- version. It has been expanded their services through online. ex: e- requisition forms, Post Graduate Thesis Index, Abstract Index of BSc dissertations etc.

Moreover, it has been developed to search electronic Journal articles through some scholarly journals. The library has linked with useful government institutes and organizations. Therefore, users can easily access to their subject interest according to the subjects which are conducted by the University.

1. Provides access to a wide variety of resources by print and online to meet the current information needs of staff and students for their academic purposes.
2. Facilitate the acquisition and development of the information skills that form the basis of lifelong learning
3. Foster a love of reading for pleasure as well as entertainment
4. Win the resources required to provide a high quality service to the user community
5. It has methodically reached to provide their service updated.

Goals achieved during the year

The main library has acquired some IT equipments. The main library received 06 computers and the Faculty of Management library received 04 computers as user terminals to engage with the self studies.

The main library has undergone for roof repairing which was in dearth on bad condition during the rain seasons. The library has been changed from roof tiles to asbestos sheets for roofing. Then the library organizing structure also changed accordingly. The former Lending hall of the library has been separated for staff administration area. Then the Periodicals area has arranged as a study area and the thesis collection has removed from the periodicals section and located at the staff admission area. The binding unit and the cyber zone is also available in the staff administration area.

Achievements

International

Through the University Web site the International community make correspondents to get information through our Libraries. The students and staff from Dirham University visited the library and get benefits on using it. A diplomat from USA embassy Dr. Redearn Vinodhini who was involved to support the ELTD unit at our university has been registered in the Library as a member on temporary basis up to her short term service and stay at our university. She suppose to plan to have some development programmes for the Faculty of Social Sciences and to the university library.

6.2 CENTRE FOR COMPUTER STUDIES

Introduction

Centre for Computer Studies is the separate academic body for providing IT services to the Sabaragamuwa University of Sri Lanka. It provides main services; such as Internet facility, mail services, networking services, e-learning facilities, hardware & software maintenance services and resource personals for some of the faculties.

History

The history of Sabaragamuwa University Computer Centre goes back to the time of inauguration of Affiliated University College (AUC) of Sabaragamuwa Province in 1991. It started at one of the residential building then own to Samanalawewa Hydro Electrical Power Project and now D1-4 quarters of Sabaragamuwa University of Sri Lanka. Initially, it equipped with 10 numbers of **Tatung** 286 computers featured 1Mb RAM, 40MB Hard disks and an **OKI** 9-pin dot-matrix printer and at the time of inauguration of AUC, late Hon. President Ranasinghe Premadasa unveiled the plaque of the centre.

At that time AUC enrolled students for Diploma programmes and conducted three diploma courses called *Diploma in Accounting & Finance*, *Diploma in Tourism Management* and *Diploma in English*. The **Core Course of Computing** offered by the computer centre was compulsory component to obtain the diploma for all programmes. Initially it was recruited one staff member to the computer centre as an Instructor-in-Computer-Technology for conducting the lectures and practical for the core course. (I was fortunate to join the then staff as a first staff member of the AUC and conducted the lectures and practical for the core course and participated to prepare the course materials for the subject.)

After some times, with the donation of Rs. 15,000/= from the then Balangoda District Judge who launched a program to donate funds for social works from the fines collected from the drugs victims, initiated to start the construction of existing computer centre building with the help of then staff, students and villagers by “Shamadana Campaign” and finally completed using the government funds. It was the first building constructed simultaneous with the present auditorium we have now, for the AUC in addition to the buildings acquiring from the Samanalawewa Project.

Meanwhile, two other staff members were recruited to the computer centre cadre to extend the work it carried out and it was the only computer centre which had an approved cadre in the AUC system.

After upgrading the AUC into full-fledge national university as Sabaragamuwa University of Sri Lanka in 1996, computer centre started to rendering it services to the different degree programs of different, especially for non-IT, faculties by means of designing and preparing course materials for IT related courses and conducting lectures and practical for it, helping to prepare and evaluate tender documents for purchasing of computers for the university, training of clerical staff of the university for effectively use of computers for their day to day works as well as helping to academic staff for preparing their postgraduate thesis and in preparing teaching materials etc.

When expansion of the university and its functions, computer centre was renamed as **Centre for Computer Studies** and re-organized under a Director and started offering assistance for conducting IT related courses for the degree programmes especially for Faculty of Management Studies and Faculty of Social Sciences & Languages and constructed another building adjacent to the existing centre for broadening its services. At the same time university Local Area Network was planned and commissioned and got connected to the Internet via LEARN and started providing and maintaining the Internet and network services to the entire university community. Launching Sabaragamuwa University Web Site and providing E-Learning environment are such land marking services offered.

Present Situation

Meanwhile, to strengthen the services provided by the Centre for Computer Studies the cadre provisions has been increased and at present, below mentioned cadres are allocated to it according to the 2008 approved cadre list of UGC.

Mr. Sanjeewa and Mr. Janaka are currently involving to do such work as well as to report about the faultier of equipments to the respective authorities to get decisions to repair them.

Present Status

Presently, the academic services provided by the Centre, on request of the different faculties are mainly limed to the computer minor programme of the Department of Social Sciences of the Faculty of Social Sciences & Languages and some IT related subjects and practical components of the different departments of Faculty of Management Studies and rarely to the degree program in Computing and Information System of the Faculty of Applied Sciences. Other IT services such as Internet and web service are provided for entire university community.

At present most of the faculties have built their own complexes and they have their own computer centers within them for conducting their IT related academic programs. Therefore, no need of using the existing buildings of the Centre for Computer Studies for conducting their programs further, instead they can be utilized for widen the services offered by the Centre such as conducting training programmes for non-academic and administrative staff as well as assisting the academic staff to fulfilling their IT-related needs etc.

The Centre for Computer Studies supervises all computer related academic activities of these five computer centers and maintains the campus-wide network including all the servers required to provide network services such as web and email services.

In year of 2010, infrastructure facilities and academic programs related with IT have further improved due to allocations from the consolidated fund by the Sabaragamuwa University of Sri Lanka. With this fund, the university managed to increase the number of computer facilities to all academic and administrative staff members at their work places as well as for students.

As part of the new initiative in Sri Lanka titled "software for the 21st Century", Microsoft Sri Lanka is providing our university with many of the latest cutting edge software, which would enable our students to be exposed to the best of world class Technology, absolutely free of charge. This software is also available to our staff members (again free of charge), enabling them to use these technologies at home as well.

The above Microsoft's commitment towards enabling job opportunities as well as fostering local innovation will be executed through several initiatives. One such program is MSDNAA. The membership provides a complete, free solution for academic labs, faculties, and students to be on the leading edge of technology.

Software offered under MSDNAA includes Windows server & client, Visual Studio, SQL Server, Exchange Server, Expression Studio, Project, Visio and MSDN Library etc. As part of Microsoft's Software for the 21st Century program, MSDNAA will be offered as a free program for 3 consecutive years.

One of the other programs under this is Live@edu - a free web based email and collaboration platform. Also ELMS (E-academy License Management System) is a critical part of the program that will support administrators to smoothly distribute the home user rights.

I am happy to inform that we have purchased domain rights for the **susl.lk** domain for ten years period from the LK Domain Registry of Sri Lanka. According to the Live@edu programme, 2970 email accounts have already been created for students those who have registered in 2006, 2007, 2008 and 2009 using their names in the format of **lastname_initials@susl.lk**. In addition, the entire academic and the administrative staff members are benefitted under this programme.

Microsoft Sri Lanka believes "software for the 21st century" program will bring great value and benefits to our university which will help students to develop and sharpen their ICT skills to be in line with the local and global industry.

Campus-Wide Network

Our campus-wide Local Area Network is run and maintained by the Centre for Computer Studies. It is administrated by our Assistant Network Managers within the server room. The server room consists of CISCO routers, proxy server, DNS server, CISCO for subnet switch, web server, e-mail server, e-learning sever, virus guard server (centralized server) etc.

The university website is restructured to maintain the consistency of its content throughout every faculty.

The wide area network now extended up to newly located Faculty of Social Sciences & Languages building. All the five faculties are now inter-connected with fiber optic backbone. At present our commodity Internet band with is 4.5Mbps and physical link is capable of handling signals of 10Mbps bandwidth. Initiatives have been taken to upgrade the Internet bandwidth to increase the performance of the internet access.

Goals of the Year 2010

- Mail system for entire university community
- Microsoft product for students and staff members free of charge
- Upgrade of internet connectivity
- Well established room for servers and reliable network functions
- Form a web team and make the university website up to date

Goals Achieved during the year

- By purchasing '**susl.lk**' domain from the Domain Registry of Sri Lanka, email accounts are created for entire student population and the academic and administrative staff of the university. Clerical and other staff can be facilitating on request in future.
- With the consultation of Microsoft Sri Lanka, took initiatives to set up the E-academy Licence Management System (ELMS) for distribution of genuine Microsoft license keys for accessing free Microsoft software products offered under the programme of "software for the 21st century".
- Took initiatives to upgrade the bandwidth of the internet connectivity from 4.5Mbps to 10Mbps and the physical link capacity from 10Mbps to 34Mbps to enhance the internet services offered.
- Server room was renovated.
- A very good web team was formed and the members of the web team have been updating their relevant faculty website once in a month. Also, took measures to convert web site in to more standard.

7. STUDY CENTRES

7.1 CAREER GUIDANCE UNIT

Profile

In the present world, the employment market has become highly competitive and therefore, only the most competent, proficient and innovative candidates with accurate attitudes secure more attractive employments and develop successful careers. Skills developed and owned by them is the main factor for competitive advantages over and above their academic qualifications. Skills demanded by many jobs are in a different frame of reference compare to the skills owned by candidates. One major comment of the stakeholders of Sri Lanka is that the graduates produced by the Sri Lankan universities are rich in knowledge, but severely lacking in practical skills. This unfortunate situation has greatly limited the career opportunities for Sri Lankan graduates, especially in the private sector. This skills gap is widening day by day as the trends in the economies transform from agriculture to industries to knowledge based economies. As country has started a development journey with an accelerated phase towards a Knowledge based society, it is imperative to come up with a viable, sustainable solution to the problem of bridging the skills gap. The objective of the career guidance unit of the Sabaragamuwa University of Sri Lanka facilitates the undergraduates of the university to secure right and successful careers providing

proper counseling, developing required career success skills through introducing capacity building programs and connecting young people with prospective employers.

Table

Achievements during the year

As the first activity, steps were taken to widen the awareness of students about the services provided by the career guidance unit of the university. This was done through notifications sent to undergraduates through Deans of Faculties and the student unions. In addition, this was successfully done by taking this as an agenda item of every meeting held with students as the senior student counselor. As a result of this awareness programmes, it was noticed that the number of students visiting the career guidance unit to inquire for various career opportunities and relevant matters increased.

A seminar was organized to introduce services offered by the career guidance unit in February 2010. It was conducted by the career advisor of the CGU.

A seminar series was started to address the first year undergraduates of each Faculty separately on “How to become a productive graduate?” to make them aware about the career guidance services of the university, general disciplines and behavior in hostels and the university premises in order to guide them for a successful university career. The seminars were conducted for the undergraduates of the Faculty of Applied Sciences, Agricultural Sciences and Social Sciences and Languages very successfully. The seminars were conducted by the Director/ CGU, Career advisor/ CGU and the Deans of respective faculties with the participation of Heads of Departments and other senior staff members. Student participation for these seminars was at satisfactory level. These seminars were highly effective to change the attitudes of the students.

A very successful workshop on “How to write a resume?” was held in June 2010 and Mr. Chandana Dissanayake, senior lecturer in the English Language Teaching Department participated as the resource person. Nearly hundred final year and third year undergraduates participated for the workshop and they have evaluated that it was a very interesting and fruitful event.

The career advisor of the CGU continued offering his services to needy students from all the Faculties throughout the period. It was evident that the number of students attending the unit for their necessities has increased during the past few months.

Steps were taken to establish close links with the career guidance units of the other universities and a number of non governmental organizations. A number of NGOs visited and had progressive discussions about organizing future career guidance activities.

A workshop on ‘Personality development” was conducted by the Ministry of vocational training.

Five day workshop to improve the employability of graduates of the Faculty of Social Sciences and Languages was conducted by BDS consultancy during the months of August and September with the participation of nearly 120 undergraduates.

The Career guidance unit played a leading role in organizing the orientation programme for the new batch of students of the Sabaragamuwa University with collaboration of other relevant units of the university. A number of seminars, lectures and introductory sessions together with sports, physical education and Shramadana campaign were conducted with the participation of nearly 950 new students. At the end of the orientation programme, a colorful concert was held with the participation of new students.

7.2 EXTERNAL DEGREE PROGRAMMES AND EXTENSION SERVICES UNIT

Goals

The objective given by the University Corporate Plan to the External Degree Programmes and Extension Services Unit is as follows;

“Establish an institute of External Degree Programmes and Extension Services (EDPESU) which could offer a wide range of courses and programmes and to achieve a student population of 5,000 by 2011”.

From the year 2008 to 2009 the number of students increased by 285. The total number of by December 2010 is 2146. To achieve the objective the exponential expansion of the unit is inevitable.

Achievements

- Commencement of new certificate courses (Certificate course in PC maintenance and Trouble shooting and Certificate course in Network Installation and Maintenance)
- Profit for 2010 Rs. 16,766,745.00

9. STUDENT SERVICES

Sabaragamuwa University of Sri Lanka, when compared with the other Universities has to pay more attention on the welfare of its undergraduates. So, the university is providing many services and facilities for the betterment of students, through its various branches and departments.

Student Affairs Branch is the first and foremost place where students should come at first when they start their student life in the university. Just after the allocations were finished universities are sent the relevant list by the UGC. Thereupon student affairs Branch is the most responsible place interms of welfare facilities of the students. After the registration students are provided below mention services and facilities by the student affairs branch.

Student Registration

Students are registered at the times they entered the university as well as annually when they start a new academic year. For each students has a separate file in this branch and it contains the date owing to his/her personal and academic life.

02.01.01 Accommodation Facilities

All students, male and female have to be provided with accommodation by the University, as the area is a low density area in respect of population.

The University has provided accommodation in its own hostels only for about 520 male students and 374 female students out of 2800 students populations. All the other students have been provided with accommodation in rented houses out in the vicinity with bare minimum facilities.

The University spends over 6 million by way of rent to accommodate the students.

Medical Facility

Maintenance of the Medical Center in the University is very costly in comparison with the other Universities. The closest hospital at Balangoda is 20 Km away from the university, and as a result the University Medical Center has to cater not only for the students but also the resident staff and their family members, and the service is free of charge.

Financial Assistances

Mahapola Scholarships

Out of the total students population of 2800 in the year 2010, only 852 students were supported with Mahapola Scholarships. This is 30% of total students population.

**THE STATUTORY REPORT ON ANNUAL STATEMENTS OF ACCOUNTS OF THE
SABARAGAMUWA UNIVERSITY OF SRI LANKA FOR THE YEAR ENDING 31ST
DECEMBER 2010.**

Forwarded herewith are the Financial Statements of Accounts and the Annual Statements of Accounts for the year ending 31st December 2010. These Accounting Statements have been prepared and submitted in terms of Section 106 (1) and 107 (b) of the Universities Act No. 16 of 1978 as amended by the subsequent legislation including the University (amendment) Act No. 7 of 1985 and in terms of the Finance Act No. 38 of 1971.

This year too the presentation and interpretation of accounts have been done in a manner similar to that of the previous year by maintaining consistency and adhering to the fundamental accounting assumptions, principles and Sri Lanka Accounting Standards where appropriate for Public Sector Perception and generally accepted accounting practices which are usually followed in presenting Annual Statements of Accounts of a University.

Income and Expenditure in respect of Extension Programme conducted at Belihuloya and other self-financing projects were consolidated in the Statement of Accounts. Following are the silent features that are needed to be highlight in the Annual Accounts.

01. As shown below the total Government Grant for Recurrent and Capital Expenditure for the year 2010 was Rs.721,918,450 as against Rs.535,796,450 received for the year 2009.

| (b) | Rs.530, 469.49 | - | Agreed as per the Audit Report year 2009 |
| (c) | Rs. 15,063.29 | - | Over depreciation provision for Library Book 2009 |

05. The assignment given to the consultant Management Frontiers has successfully completed the Assets Register and value up to 31.12.2005. The Management consultant introduce and calculated the depreciation for the year 2006 on the generally accepted method. namely the full year depreciation is charged in the year of purchase and no depreciation is charged in the year of disposal. And also this depreciation method is adopted in using the rates in the UGC circular 649 from the financial year 2006.

This method of calculating depreciation was approved by our council at its 117th meeting held on 20.01.2007. Accordingly University follows that method to depreciate our asset for the year 2010 and hope to continue in future.

06. Lands and buildings at Rahangala have been given to the Defence Ministry with effect from 2007.06.28 on exchanging of land belongs to the Defence Ministry extending of 50 Acres at Belihuloya to the Sabaragamuwa University of Sri Lanka. Action has been taken to value the land at Belihuloya by the Department of valuation. Therefore the values of Lands and Building of Rahangala is shown in Disposable Account until the valuation of Belihuloya land which is given to the University is obtained.

07. The university has the following court cases at the moment.
