## 1.1. National Sports Festival XLII

This grand festival is held annually with a view to identify talented athletes selected at Provincial level and providing them with opportunities to showcase their talents at National events. This festival will be held annually in a grand manner, following inter-sports clubs competitions, district level competitions and provincial level competitions.

The National Sports Festival was held successfully in Northern Province for the first time in its history, at Duraiappah Stadium in Jaffna this year. Representing all nine provinces of the island, athletes who participated in various events, played with their high spirits in 33 events for the victory of their own provinces. Western Province, who obtained 113 Gold medals, won the first place of the whole festival. For the first time tug of war was introduced to the Festival as an event. It is significant that athletes were able to establish 06 new Sri Lankan records and 31 new records in tournament. A sum of Rs. 143 million was incurred as account of the National Sports Festival XLII.

## 2.2 Development of Rural Sports Playgrounds

Under this project, 289 sports grounds were developed as at 31.12.2016, covering all districts in the country. Work on these grounds was accomplished through Divisional Secretariats with the direct supervision and allocation of Department of Sports Development.

Through this project, it is expected to improve sports talents of school children and other athletes in remote areas by developing school playgrounds and rural sports grounds with other sports infrastructure facilities added to them.

To implement this project successfully, an allocation of Rs. 444.20 million has been set aside for 2016. By the end of the year, Rs. 389.68million was spent and value of bills in hand of District Secretaries is Rs. 33.68 million. Accordingly, financial progress is Rs. 423.36 million and physical progress of 100% could be achieved.

## **2.3 National Sports Museum**

Construction of Sports Museum is an ongoing project to comprehend the historical importance of sports to future generations and to conserve memorabilia of sports.

The main objectives of this project are, to make the next generation aware of the history of sports, to conserve special documents relevant to the sports field and memorable championships of magnificent athletes, to construct a gallery of life-size statues of athletes who obtained international level conquests, conservation of information about history of National Sports Federations and development of an Information Centre to obtain sports information.

Construction of National Sports Museum will be undertaken by the Civil Engineering Unit of Sri Lanka Navy according to the architectural designs of the British Era reflecting the grandeur of the old residence of Hon. F.R. Senanayake by removing additional structure thereof.

The proposed Sports Record Room to be housed on the upper floor and the work on Sports Library (electronically operated) has been planned under the guidance of the Computer Section of University of Colombo.

It is proposed to reserve 25% of space of the Museum for displaying visuals of Special events in Olympic Games and to get the opportunity to connect with the international sports museum net. Plans are underway to erect three storeyed building adjacent to the F.R.Senanayake building from behind in order to obtain 40<sup>th</sup> membership in the Museum Network of 39 countries. This is proposed to be built in 2017. For 2016 a provision of Rs. 20.00 Million had been set aside and the amount so allocated has been incurred for the very purpose.
