Listening to the issues of the customers

Attempt to provide solution to issues of the customers

Making peaceful and suitable environment to customers

Finding solutions for the issues at once

Preserving the respect of the customers

Do not waste the time of the customers

Historical Background of Ampara District

The ancient Sri Lanka consisted of three kingdoms such as Ruhunu, Rajarata and Mayarata. The historical evidence ratifies that the history of Deegawapi or Digamadulla kingdom which was considered as a vital wealthiest resource of Ruhunu kingdom prolongs up to the period of Lord Buddha. In terms of the ancient chronicle stories, Vijaya came to Sri Lanka when Lord Buddha reached the utmost stage of blissful rest of lying on the bed of his nibbana. When Lord Buddha was graciously present in Sri Lanka for the third time at the invitation of king, Manik Akkitha Nagar, it is said that he was graciously present in the Deegawapi area.

Ampara emerged as a settlement of Aryans during the monarchy of Bandugasdeva who ruled the country after Vijaya. The chronicle stories state that Thiyaugamam established by the Prince, Thiyahu who is a brother of the queen of Bandugasdeva king, Kathiyana Kumari was later called in the names of Deegawapi and Digamadulla.

Bandugabaya Prince, son of Dugagamini brought Anuradhapura under his rule and made it as the capital of his monarchy. Thereafter, Digamadulla was ruled as an administrative area under Anuradhapura kingdom. It also prospered as a vital granary. When the Polonaruwa kingdom declined, its reign was pushed to the south western area and Ampara emerged as a forest reserve.

The Major Irrigational Technology of Mahasena expanded from the area of Viththanna in the east to Kandy through Thamankaduwa and Serunuwera. Ruhunu area cannot be easily forgotten for its self-development activity. When we travel around the areas of the Ampara District, we may witness several ruins related with irrigation development that had been developed for a long time.

Professor R.L. Brokiyar says that Galoya was the food land of Veddha society before the historical inscriptions of Sri Lanka was maintained. This is seen in the inscriptions up to the period of 03rd century A.D. established by the prehistoric Aryan society.

The sentences “ye rethiya abaraya ithiya akanatha ithika theramahinda therathuwa” has been inscribed in an inscription located near the Dagoba ruins in the area. In terms of the inscription, the Dagoba has been brought for the development of the Island. This has been introduced as the Dagobas of Mahinda and Iddithiya. This ratified the information/news in Mahawamsa regarding the visit of Mahinda and Iddithiya to Sri Lanka. News confirms that Dagobas were constructed throughout the Island burying tusks/ivories as treasures under them. In the meantime, the letter obtained in Rajagala area says about a woman called Rabitha who is the queen of King Dutugemunu. This is a historically important letter. Likewise, the inscription gives the evidence about the matrimonial relationship between the families of the Queen Nanthamithrai and King Dugemunu. According to this inscription and inscription in Omunugala in the Ampara District prove that the daughter of the king Dutugemunu and son of Nanthamithri got married.

The scholars accept/recognize that the inscription of 10th century as an extra ordinary historical resource. In terms of the inscription, it is proven that Sachchiriya Singha lived in Ampara during his ultimate period. The inscription says that the village referred to in the inscription was a self-sufficient village and things were not brought from the outer areas for the sale. The said inscription further refers to that the area was ruled by the kingdom of Anuradhapura.

Historical evidence proves that Ampara was a prominent place during the Polonnaruwa regime. Digamadulla had immensely assisted the campaign led by Maha Vijayabahu to redeem the country from the Cholar dominance. The inscription also mentions about the wars made by him in his mission. Further information says that Digamadulla had been under the dominance of Suhara and Rabeena. The book published by the University of Sri Lanka on the history of Sri Lanka says that the king Maha Parakiramabahu warred with Suhara Rabeena in Ampara in order to confiscate the tusks/ivories. This book also reveals that the right/entitlement Thalava priests during the period of Sri Lanka history belongs Deegawapi. According to the Deegawapi book explaining the precious terms, the King Keerthi Raja Singhan during the period of 1756 visited Deegawapi and reconstructed the Deegawapi Dagoba and paid the homage to the priest of the viharaya. The inscriptive notes that were seen in the Dagoba entrance on the west until the recent time, that have lost their beauty now belongs the inscriptive tradition of Kandy rule.

The contribution of British in the irrigation development made in the Ampara can be pointed out as an important event after the year of 1818, especially the Governor Henry Road visited the eastern province and provided money for the development of irrigation sector. This was a highly valued event. This was a great reason for the British rulers to provide money to reconstruct the irrigation sector. Reconstruction of water reservoirs in the Divulana, Dadayanthalawa and Sagamam in the Ampara District and commencement of Paddipalai river project in 1880 were held under this plan. Under the Paddipalai river project, Ampara tank and Kondawatuwan tank and construction of dams across the Gal Oya river supply water to about 40000 acres, Ampara district was transformed as a stretch of paddy lands.

Thereafter, the fundamental objectives of the Gal Oya Irrigation Project were streamlined and once again Ampara District was formed as the center of development in the east. It should be noted that the ways and means for irrigating water to the lands by constructing reservoirs in high lands was done under the Gal Oya Project. Gal Oya project is a historical one since it was the first time in Sri Lanka that such a project was implemented in Sri Lanka.

According to Coul Brooke and Gamaran Proposal which helped the British to form a new foundation in the British rule of Sri Lanka, Sri Lanka was divided into five provinces. Ampara area had been included in the eastern province. The eastern province also consisted of the districts Batticaloa and Ampara and the areas of Thamankaduwa and Vinthana. The provinces formed so were later divided into districts. Accordingly, the eastern province consisted of Trincomalee and Batticaloa. Digamadulla and Linthanai were under the Batticaloa district. In 1837, Linthanai was merged with the Badulla district. From 1961 up to the establishment of Ampara district, Digamadulla was not brought under any Administrative Divisions.

Fundamental Information of Ampara District

Ampara District bounded by the districts of Polonnaruwa and Batticaloa on the north, the Indian Ocean on the east, Hambantota and Monaragela on the south and by the districts of Badulla and Matalae on the west has the area of 4415 square kilometers. Ampara district that consists of land area in the extent of 205978 hectares and internal water resources in the extent of 19280 hectares has the population of Sinhalese, Tamils and Muslims.

Ampara District based on the Gal Oya Project and Mahaweli C Zone for the irrigation is very suitable for the paddy cultivation. It should be proudly noted that Digamadulla farmers provide 20 percent of paddy required for the country in a year. In addition to paddy cultivation, cultivation of sub crops and chena cultivation are also cultivated as means of living. As the Ampara district is situated in the tropical zone of Sri Lanka, it obtains raining from the north eastern monsoon. While the average temperature of the district is 70 degree Celsius, its average rainfall is 70 inches. The Gal Oya slope of mountain that is located on the eastern border of central hill country is the western border of the district. In some places, this Gal Oya slope of mountain is very high. Ampara district consists of many forest areas. It is resourceful area for the wildlife and wild animals. Gal Oya National Forest area, Ampara Sanctuary, Lagugala national forest and Buddangala sanctuary are few pleasant sanctuaries in the district.

Ampara district is a very valuable place related with history, religion and culture. Buddangala Bhikkus' Place, Rajagala Buddhist temple, Deegawapi Buddhist temple and Mangul Buddhist temple and Muhuthu Buddhist temple are some prominent archaeologically valuable Buddhist temples in the district. Hot springs in the areas of Maha Oya and Padiyatalawae, beautiful beach in Arugambay area and the road for the devotees who make their pilgrimage to Kataragama are some pleasant places for tourists.

There are still two three places like Pollepetta and Henanigala in the district for ancient community like Veddah. The district also has different cultural aspects.

The district is formed with 19 divisional secretariats such as, Ampara, Dehiyattakandiya, Padiyatalawa, Maha Oya, Uhana, Damana, Lahugala, Pottuvil ,Aalayadivempu , Akkaraipattu, Addalachenai, Nintavur , Kalmunai, Thirukkivil, Sammanthurai, Karaitivu , Irakkamam ,Sainthamaruthu,And Navithanveli. The district also has the Kalmunai & Akkaraipattu Municipal Council and Ampara Urban council

District Secretariat and Attached Government Institutions

District Secretariat is situated at the north location away 01km from the center of the town. Most administrative duties of the district will be implemented by this office. The building of the District Secretariat was constructed by using metal under Kaloya Scheme. Most of the peoples call this building as Ampara Kachcheri building. The following offices will be operated at the Kachcheri premises.

Agriculture Industries of Ampara District

Ampara District contributes an important role in the Paddy production of Sri Lanka and majority peoples of the Ampara District are cultivating paddy for their livelihood.

In addition to the paddy cultivation, sugar cane, Vegetables, chilies and other crops are cultivated in the Ampara district.

Ampara District has granted 20 percentages in the total rice production.

The farmers of the district not only do cultivation using minor and major, but they do animal husbandry such as cow and chicken.

Types of Paddy sown in the Ampara District

Types of Paddy	Harvesting Period
BG 450	4 ½ Months (White long)
BG 94-1	3 ½ Months (White long)
BG 358	3 ½ Months Samba
AT 307	3 Months Bola
BG 300	3 ½ Months Bola
AT 362	3 ½ Months (Red long)
AT308	3 Months Samba

Names of the Government Farms in the Ampara District

- ❖ Malwatta Farm
- ❖ District Training Centre, Wavinna
