Measurements Units, Standards and Services Department Performance Report and Annual Accounts - 2016

The aim of this report is to show the basic policy, projects of Measurement Units, Standards & Services Department which have been implemented and to represent the progress of the projects that have been implemented during the year 2016.

1. The Department and Its Functions

1.1 Introduction

Measurement Units, Standards and Services Department (MUSSD) was established under the Measurement Units, Standards and Services Act No. 35 of 1995. MUSSD functions under the purview of ministry of industry and Commerce. The department is responsible for, providing accurate and reliable measurement procedures and metrology services, safeguarding the interests of the consumer, maintaining and updating the National Measurement Standards in conformity with the international measurement system by implementing the law and regulations of this act.

Each country in the world has a special establishment responsible to realize, establish and maintain the national measurement standards. It is generally called National Measurement Institute (NMI). MUSSD bears the responsibilities of the NMI in Sri Lanka. Establishment, maintenance, and dissemination of national measurement standards in Sri Lanka are done by the National Measurement Laboratory (NML) established under the department. Moreover various calibrations and verification services for measuring instruments used in fields such like industry, engineering, environment, health protection, road safety etc; are provided by MUSSD.

Further the recommendations of OIML¹ are followed in legal metrological activities. Pattern approval of electrical and mechanical weighing and measuring instruments, initial and annual verification of such instruments are being done according to those recommendations.

1.2 Vision

Accurate and reliable measurements for well protected customer community

1.3 Mission

“To establish, maintain & disseminate the national measurement standards in compliance with international standards, ensuring justice & equity for producers, traders, metrological & other service providers & consumers, through the regulatory & service activities based on measurements to uplift the quality of life and standards of Sri Lankans”

¹ International Organization of Legal Metrology

1.4 Metrology

Metrology is the science of measurements and its applications. Measurements related to various quantities such like mass, length, time, pressure, volume, electric current, electric resistance etc; are frequently necessary in the daily life activities. All the researches, scientific and regulatory activities carried out internationally and locally for sustaining a unity of physical quantities and units can be defined to be Metrology.

Metrology can be classified into three fields.

1. Scientific Metrology (Fundamental Metrology)
2. Industrial Metrology (Applied Metrology)
3. Legal Metrology

Out of these fields industrial metrology and legal metrology are extensively rely on the basis of scientific metrology.

1.4.1 Scientific Metrology (Fundamental Metrology)

This is major out of three fields in metrology, sometimes referred to as Fundamental Metrology, is the subject concerns the establishment of quantity systems, unit system of measurement, development of new measurement methods, establishment, definition, and realization of local and international measurement standards, and transferring traceability to the user in the society through the hierarchy of such standards. Also scientific metrology covers theoretical and practical aspects of identification and resolving measurement problems and related issues.

Implementation of activities related to Scientific Metrology is as follows.

1. Establishment of the National Measurement Laboratory and National Measurement System of the country
2. Realization, establishment, updating, maintenance and dissemination of National Measurement Standards
3. Establishment and maintenance of the National Measurement Standards so as to traceable to International Measurement Standards (SI)
4. Dissemination and promotion of measurement parameters and technology necessary for different fields
5. Upgrading the calibration and measurement capabilities (CMC) by participating in international bilateral and multilateral inter-comparisons related to various quantities
6. Providing training and consultancy services on metrology
7. Metrology researches
8. Generating Sri Lanka Standard Time and broadcasting via www.sltime.org

1.4.2 Industrial Metrology (Applied Metrology)

Industrial Metrology concerns how to apply measurement science to manufacturing and industrial processes. Ensuring the compliance of use of measuring instruments, industrial metrology addresses the application of measuring instruments in industry, and quality control of them. There the management of measuring instruments and

industrial calibration are done according to the requirements of a quality production process.

Activities carried out by the department related to Industrial Metrology are as follows.

1. Providing necessary laboratory facilities for calibration of measures and measuring instruments/systems used in production industry (including laboratory calibrations and on site calibrations)
2. Inspection and verification of large scale measuring instruments established in production and service industries
3. Providing necessary training and consultancy on resolving measurement problems raised in industrial measurements

1.4.3 Legal Metrology

Legal Metrology concerns the field of legal control of measurement. It is the process of certifying measures and measuring instruments to be complied with measurement laws in the country after the inspection of such instruments and measures according to the legal requirements on the use of measuring instruments. Necessary legal provisions have been provided via the act No. 35 of 1995. Accordingly, law and regulations made are implemented throughout the sectors like health, public safety, environment, enabling taxation, protection of consumers and fair trade.

Activities under legal metrology implemented by Measurement Units, Standards & Services Department have been defined in the act and its regulations. Weighing and measuring found in all the commercial transactions are controlled by measurement law. The act empowers the department to regulate legal metrological activities in the following ways.

1. Calibration of working standards and establishment of such standards in district basis (according to the act the District Secretary serves as the Superintendent of Measurement Services also and working standards are kept under the custody of him)
2. Initial and annual verification of weights, measures, weighing and measuring instruments used in trade
3. Registration of manufacturers, importers, repairers and sellers of weights, measures, weighing and measuring instruments used in trade
4. Protect consumers by implementing the penal section of the act
5. Consumer awareness on Legal Metrology
6. Granting pattern approval of weights, measures, weighing and measuring instrument used in trade and industry (This service is provided by the National Measurement Laboratory)
7. Inspection and control of pre-packed commodities
8. Verification of measuring instruments related to health sector, environment protection, and road safety
9. Prosecution against persons who commit fraud measurements by conducting market raids

1.5 Staff Information

1.5.1 The Cadre Composition – 2016 (table 1)

Position	Salary Scale	Service Category	Class	Approved Cadre	Actual Cadre			Vacancies
					Permanent	Casual	Acting	
Director MUSS	SL-1-2016	SLSS	I	01	-	-	01	01
Deputy Director MUSS/ Assistant Director MUSS	SL-1-2016	SLSS	III/II/I	11	10	-	-	01
Assistant Director (Admin)	SL-1-2016	SLAS	III	01	-	-	-	01

2. Services Provided by the Department

2.1 Pattern Approvals

The pattern approval is an attestation of any weight, measure or weighing/measuring instrument after a pattern test, performed by a recognized laboratory to check whether they are in conform with the measurement law in Sri Lanka, before they are sent to the market by a producer or before they are imported. Pattern approval is a technical assessment. The original model of the instrument is undergone through a series of tests at the National Measurement Laboratory. The design and the structure of each of the components of the instrument are checked against the recommendations on type approval defined by the International Organization of Legal Metrology – (OIML). Subsequently based on the evaluation of the test results a pattern approval is granted by MUSSD for the intended weights, and measuring instruments including vehicle emission testing units, and fuel dispensers (Appendix 1, and 2).

2.2 Industrial Calibrations

Calibration facilities for pressure gauges, thermometers, weights, scales and length measuring instruments, electrical measuring instruments, moisture meters, laboratory balances etc; which are used in industry, engineering or any other related field are now available at MUSSD. Calibration certificates are also issued with such calibrated instruments.

Industrial calibration is one of the main services provided by the National Measurement Laboratory. Moreover verification of vehicle speed detectors and vehicle emission testing instruments has been started (table 8). Amendments of calibration charges are as per the extraordinary gazette No. 1921/54 dated 2 July 2015.

2.3 Re-verification of Working Standards

Working Standards used for verifying weighing and measuring instruments related to trade and industry have been retained under the custody of secretary of each district in the country. These standards must be calibrated once in two years. Calibration of working standards is done at the National Measurement Laboratory. Working standards include standard weights, standard volume measures, and standard length measures.

2.4 Verifications, Inspections, and Raids of Weighing and Measuring Instruments Conducted on District Basis

Inspections and raid programmes are implemented by MUSSD to ensure that the weights, measures, weighing and measuring instruments used in the country are utilized in conformity with the weights and measures laws and regulations of the country. These programmes are very helpful, in terms of legal metrology, not only to protect the customer but also to ensure an accurate and reliable measuring practice in the country.

Verification of weights, measures, weighing and measuring instruments used in trade is done by Measurement Services and Devices Inspectors who assume duties at

Measurement Units, Standards & Services Divisions of each District Secretariat. Verification centers are held at Pradeshiya Sabha and any other government institutes of each district under the prior approval of the District Secretariat. Moreover a mobile verification unit for weigh bridges has been commissioned to verify annually all weigh bridges placed in every district. All fuel dispensers mounted at every fuel station in the country are verified once every year. For the particular purpose a Fuel Dispensers Verification Unit has been introduced. (Tables 15, 16, 17, and 18)

2.5 Inspection of Pre-Packed Commodities

The commodities that have been packed before selling to the consumers are called Pre-Packed Commodities. Net content mentioned (weight, volume, length etc) on the pre-packed item is undergone to inspections for verifying whether the right content is available at the display of goods in the market. Inspection of pre-packages is performed according to OIML regulations.

When inspecting pre-packages, samples of a particular item available at the display in the market are arbitrarily selected and subsequently the net content (weight, volume, length etc) of the item is measured. Here a definite number of replicas of such pre-packed item are inspected in their content. The results are then analyzed statistically. The final decision on the pre-package would be based on the statistical analysis and regulations made on prepackages by the department after comparing the net content and the results against the recommended tolerance/permissible error. Further details are referred to the extraordinary gazette No. 1499/7 dated 29 May 2007.

2.6 Registration of Private Entrepreneurs Engaged in Commercial Activities Controlled over Legal Metrology

Any organization or individual who is engaged in selling, manufacturing, importing or repairing of weights, measures, weighing and measuring instruments must get registered with the department as per section 21 of the Measurement Units, Standards and Services act. For that the person must apply via a prescribed application form determined by the Director of Measurement Units, Standards and Services and the corresponding fees must be paid. The certificate issued in such registrations will be expired on 31st December of the year.

Before starting a business of repairing weights or measuring instruments the interested person should first face to a practical test hold by MUSSD to prove his competencies and qualification related to such repair activities. Examination fees should be paid by the person.

Subsequently the workshop of the applicant who is qualified through the practical examination is inspected by the officers of MUSSD to check whether the necessary tools and equipment are readily available for the repair purpose.

After qualifying through the practical test and satisfactory witness of the workshop a registration certificate is issued to the applicant (tables 13, 14). The certificate empowers the person to be a qualified repairer. This certificate is not transferable. In case of any change of the business ownership, a qualified technician must be appointed in the business immediately.

Registration fees and all related details have been published in the extraordinary gazette No. 1921/54 dated 2 July 2015.

2.7 Generation and Broadcasting the Standard Time of Sri Lanka

MUSSD possesses the honor to be the pioneer of generating and broadcasting the Standard Time in Sri Lanka since 2011. Sri Lanka Standard Time was launched by the Electric Time and Frequency Laboratory of NML as a new project in order to establish the island wide unity of time. For the purpose a Rubidium Atomic Clock has been established to generate the accurate time in Sri Lanka in accordance with Universal Time Coordinates (UTC) and the new website www.sltime.org was launched in April 2011 to broadcast the accurate time. People are now able to set their time correctly via the website at any time in the day. All the respective parties are informed to set their clocks with correct time using the website.

Presently steps have been taken to upgrade this extensively developing service by introducing a Caesium Atomic Clock which is able to generate the most accurate time in the world.

2.8 Calibration of Measuring Instruments Used in Health Sector

It is ensured the accuracy of measuring instruments such like weighing machines, scales, blood pressure meters, and thermometers, used in health sector by calibrating them which in turn results in a reliable diagnose and treatment. In this regard MUSSD is capable of providing calibration/verification facilities for hospitals and other related institutes.

3. International Relations, Training Programmes, and Conferences

Relations in metrological perspectives are created with various countries in order to maintain the international and regional corporation of Metrology. It also helps to establish international traceability of measurement and overcome the technical barriers arise in trade. International relations are essential further to provide a secure basis for scientific and other measurement practices we have and to reduce technical disputes arising in many countries.

MUSSD has been continuing relations with the following organizations related to metrology.

1. Membership of the International Organization of Legal Metrology (OIML)
2. Membership of the Asia Pacific Metrology Programme (APMP)²
3. Associate membership of the International Committee of Weights and Measures (CIPM)³ and Mutual Recognition Agreement (MRA)⁴
4. Participation in various projects implemented under SAARC-PTB bilateral technical corporation (corporation between German Metrology Institute and SAARC) as a regional country

Apart from the above relations MUSSD has participated in international comparison programmes pertaining to various physical quantities every year and has proven satisfactory results from them. Officials from MUSSD have participated in many foreign training programmes and conferences related to metrology in 2016. (table 11)

4. Local Training Programmes

4.1 Training Programmes Conducted by MUSSD

A special programme was launched in 2016 to offer training opportunities necessary for the field of metrology. At present MUSSD has had enough resource persons to offer training on Chemical Metrology and Uncertainty Calculations. Information on such training programmes conducted in 2016 is given in table 3 below.

Name of the course	Dates	Number of participants	Fee* Rs.
Uncertainty Estimation in Measurement Science	2016.03.31	23	9500.00
Uncertainty Estimation in Measurement Science	2016.07.28	30	9500.00
Laboratory Quality Management	2016.12.15	10	7500.00

*Fee per person

² Asia Pacific Metrology Programme

³ International Committee for Weights and Measures

⁴ Mutual Recognition Arrangement

4.2 Training Programmes/Workshops for Staff of MUSSD (table 4)

Name of the course	Dates	Number of participants	Expenses Rs.
World Metrology day	2016.05.25	150	59,669.00
World Environment day	2016.06.16	100	30,200.00
Two days Residential workshop for all the staff	2016.09.30 2016.10.01	225	790,376.00

4.3 Orientation of Officers in Local Training Programmes

MUSSD is always actively interested in identifying necessary training needs of all officers in every section. It is believed that every officer of the department must have to maintain a proven track record of skills related to his daily work. Necessary training is provided to officers so that they can improve their gained knowledge further and enable them to have promotions with updated knowledge and well experience at work. Information on local training programmes in which MUSSD officers were participated is represented in table 12.

5. Physical Development**5.1 Procurement of Physical Items**

This is reference to all furniture, electric appliances, laboratory instruments and office needs procured in 2016. These procurements cover the needs of headquarters. (table 6)

5.1.1 Procurement of Standard Measuring Instruments

Tabulated is information related to standard measuring instruments required for the National Measurement Laboratory procured in 2016. (table 5)

Instrument Name	Quantity	Total Cost Rupees
Water Triple Point Cell	3	1,421,217.53
Dry block calibration bath for low Temperature	2	2,213,993.32
Temperature & Humidity data logger	2	824,392.26
Hydraulic standard pressure balance	1	17,338,666.64
Pneumatic standard pressure balance	1	19,330,025.11
High Temperature Shield for data Loggers	10	980,000.00
Dry Ice Maker	1	262,857.70

5.1.2 Facilities Provided to Head Office

(table 6)

	Facilities Provided	Quantity	Total Cost Rupees
1	LED 32" Television	02	91,000.00
2	LED 42" Television	01	85,080.00
3	Photocopy Machine & Stand	05	727,500.00
4	Office Table	07	125,217.00
5	Office Table	06	32,400.00
6	Office Cupboard	08	116,523.00
7	Reception Table	01	60,500.00
8	Reception Chair	01	11,000.00
9	Computer Chair	14	130,485.60
10	File Rack	11	192,060.00
11	Mid back Chair	03	33,258.00
12	Cabinet with 4 Lockers	04	61,081.08
13	Lab Table (Small)	02	92,303.20
14	Lab Table (Large)	02	133,256.00
15	Air Conditioner Machine	24	3,643,174.90

5.2 Future Projects

5.2.1 Pattern Approval and Verification Center of Taxi Meters

This project has been proposed to facilitate people with an accurate and reliable travel fare counting system of taxi meters of which the accuracy must be verified. Through this project, the metrological parameters related to taxi meters are controlled. Same as every other measuring instrument used in trade, the legal control of taxi meters will comprise four components; the pattern approval of the meter, initial verification, road test after the installation of the meter, and annual verification.

At present, two institutes have applied for the pattern approval of taxi meters. One intermediate approval for the pattern of taxi meter has been granted for one of the institutes. The other institute has been informed on issues related to the suitability of the pattern of taxi meter which they have submitted for an approval. The corrected sample will be tested after they resubmit the pattern of the taxi meter. None of the other institutes identified have submitted their taxi meter samples for the approval.

In conclusion, I would like to extend my sincere thanks to all the staff of the department and the District Secretaries for their corporation and support in carrying out the duties and bearing responsibilities that are reposed on me of this department in an efficient manner.

K. Premasiri Kumara
Acting Director
Measurement Units, Standards and Services Department

6. National Measurement Laboratory

6.1 Information on Calibration Services Provided by Each Laboratory (table 7)

	Name of the Laboratory	Calibration Facilities Provided

6.3 Pattern Approval of Weighing and Measuring Instruments – Year 2016 (table 9)

Type of Pattern Approval	Number of Units	Fee Rs.
Electronic Weighing Machines	27	513,600.00
Volumetric Measures	1	20,000.00
Fuel Dispensers	22	460,000.00
Taxi Meter	1	20,000.00
Total	51	1,013,600.00

6.4 Summary of Income – National Measurement Laboratory (table 10)

Service Category	No. of Instruments	Fee Rs.
01. Calibration of weights & scales	377	946,250.00
02. Calibration of length measurement	205	371,500.00
03. Calibration of thermometric instrument	163	360,870.00
04. Calibration of pressure gauges instrument	65	97,600.00
05. Calibration of radar equipment, analog and digital inspection instruments, stop watches, air flow meters, various multi meters, resistance substitute instruments, hip hop testers, mega ohm meters, broad band timers, load cell stimulators, clamp meters, insulation testers and tachometers.	43	118,500.00
06. Pattern approval fuel dispensing pumps and scales pattern approval of first and second testing	51	1,013,600.00
07. Calibration of volumetric instrument	26	38,700.00
08. Calibration of electricity meters	21	95000.00
09. Inspection of pre-packages	8	44,640.00
10. Inspection of Lidar Speed Detectors	28	56,000.00
11. Training Programmes (Chemical Metrology and Uncertainty Calculations)		531,000.00
Total	987	3,673,660.00

Foreign Trainings & Conferences – 2016 (table 11)

	Name of the officer	Designation	Country	Time Period	Training/ Conference
01	Mrs. J .S .M .Silva	Assistant Director	Thailand	25.01.2016 – 29.01.2016	Kick Workshop for the Inter – Laboratory Comparison exercise for Hydraulic Pressure Standards under the project of “Regional Cooperation in the Area of Metrology in Asia” and cooperation between APMP and PTB
02	Mr. H.L.I.S. Sampath				
03	Mrs. R. C. Karunasena	Metrology Investigation Assistant	Korea	21.03.2016 – 01.04.2016	Metrology in Chemistry (MiC) organized by the Global Metrology Academy (GMA) of KRISS, Korea
04	Mr. A. D. D. Naminda	Assistant Director	Nepal	30.03.2016 - 01.04.2016	Workshop on Best Practice for Developing Metrology Legislation
05	Mrs. K. S. Mallawa Arachchi				
06	Mr. S.D.I. Dias	Assistant Director	Italy	26.06.2016 - 02.07.2016	Summer School 2016: Metrology from Physics Fundamentals to Quality of Life
07	Mr. R.G.S.A. Perera	Assistant Director	Korea	11.06.2016 – 24.06.2016	Training course on Metrology of Electricity And Magnetism (EM) organize by the Global Metrology Academy (GMA) of KRISS
08	Mr. L. N. Senaweera	MSD Inspector	Thailand	11.07.2016 – 13.07.2016	Verification of Fuel Dispensers – Legal Metrology under the project of Regional Cooperation between APMP and PTB
09	Mr. R. G. S. L. Ariyapala				
10	Mrs. K. S. Mallawa Arachchi	Assistant Director	Indonesia	30.08.2016 – 01.09.2016	MEDEA Training Course on Mass Standards (PTB sponsored)
11	Mrs. K. A. D. S. P. Kumarapeli	Metrology Investigation Assistant			
12	Mrs. G. D. S. C. Garusingha	Metrology Experimental Officer	India	05.09.2016 – 09.09.2016	Short term Training on Pressure Metrology, NPL India.
13	Mrs. R. A. W. R. Rajamanthri				Short term Training on Mass Metrology, NPL India
14	Mrs. S. N. Samaraweera				Short term Training on Thermometry, NPL India.
15	Mr. P. K. J. Pathirana				Short term Training on Dimensional Metrology, NPL India
16	Mrs. A. I. Iranganie				Metrology Investigation Assistant

Performance Report 2016

	Name of the officer	Designation	Country	Time Period	Training/ Conference
17	Mr. A. M. K. Ganapati	Development Office	India	05.09.2016 – 09.09.2016	Short term Training on Pressure Metrology, NPL India
18	Mr. R.G.S.A. Perera	Assistant Director	Thailand	27.09.2016 – 29.09.2016	Technical Workshop and Inter Laboratory Comparison Exercise for GPS Time – Transfer and Calibration Techniques
19	Mr. A. D. D. Naminda	Assistant Director	Japan	03.10.2016 – 07.10.2016	Workshop on Laser Interferometers for Length Measurement
20	Mr. S.D.I. Dias	Assistant Director	Thailand	10.10.2016 – 13.10.2016	Technical Workshop Proficiency Testing
21	Mr. S.D.I. Dias	Assistant Director	Vietnam	09.11.2016 – 12.11.2016	Workshop on Measurement and Standards for Grain Food Safety and Free Trade and Technical Committee Meeting
22	Mr. K. Premasiri Kumara	Director (Acting)	Vietnam	09.11.2016 – 20.11.2016	APMP 32 nd Meeting & General Assembly.
23	Mr. S.N. Akuranthilaka	Assistant Director			APMP Technical Committee meeting on Temperature (TCT)
24	Mrs. J .S .M .Silva				APMP Technical Committee Meeting on Mass Related Quantities (TCM)
25	Mr. R.G.S.A. Perera				APMP Technical Committee Meeting on Time & Frequency (TCTF)
26	Mr. R. D. M. Alanka				APMP Technical Committee Meeting on Electricity & Magnetism (TCM)
27	Mr. P. D. N. Jayasingha	MSD Inspector	Malaysia	28.11.2016 – 02.12.2016	Verification of Non – Automatic Weighing Instrument in the framework of the MEDEA Project
28	Ms. C. S. Wellage				

Local Training - 2016 (table 12)

	Name of the officer	Designation	Training	Institute	Time Period	Course Fee Rs.
01	Mr. A. D. D. Naminda	Assistant Director	Management of Public Archives	Department of National Archives	17.03.2016	Free
02	Mr. .L. N. Senaweera	MSD Inspector	Diploma in English – II	University of Ruhuna	23.02.2016 - 25.03.2016	19000
03	Mrs. T. P. G. Karunarathna	Development Officer	Training of Taxation	PRAG Institute	07.06.2016	5400
04	Ms. B. A. G. S. Wijewardhana					5400
05	Ms. S. Idamawaththa					5400
06	Mr. Eranga Pradeep Kumara					5400
07	Mr. Eranga Pradeep Kumara	Management Assistant	Management of State Assets	PRAG Institute	29.07.2016	6000
08	Mr. Prasanna Sanjeewa	Management Assistant	Office Management	SDFL Institute	11.08.2016 – 12.08.2016	8500
09	Ms.R. Kamalane					8500
10	Ms. Anusha Udayangani					8500
11	Mr. I. D. Anura Udana	MSS Attendant	Training on Electric Generator	CETRAC Institute	09.06.2016 – 10.09.2016	6500
12	Mr. K. A. Priyantha	MSD Inspector (Trainee)				6500
13	Mr. J. H. M. B. S. C. Jayapathma					6500
14	Mr. Eranga Pradeep Kumara	Management Assistant	Procurement Procedure and Bid Management	PRAG Institute	02.09.2016 15.09.2016 20.09.2016 28.09.2016	22000
15	Ms. Anusha Udayangani	Management Assistant	Salary Conversion and Salary Preparation	PRAG Institute	11.10.2016	6000
16	Ms. Janakee Nanayakkara					6000
17	Mr. C. Ekanayaka	MSD Inspector	Diploma in English – II	Sri Lanka Institute of Development Administration	14.10.2016 60 hours	20000
18	Ms. K. A. V. P. Rathnapala					20000
19	Ms. A. I. Irangani	Metrology Investigation Assistant	Modern Technology	Center of Athar c Clack	28.11.2016 – 02.12.2016	31000
20	Ms. G. D. S. C. Garusingha	Metrology Experimental Officer				

Distribution of Private Entrepreneurs Engaged in Commercial Activities Controlled over Legal Metrology
(table 13)

District	Number of Registered Persons in Each Category			
	Manufacturers	Importers	Repairers	Traders
Colombo	05	31	59	42

Trincomalee	-	-	-	03
Total	22	43	217	253

Registrations of Private Entrepreneurs Engaged in Commercial Activities Controlled over Legal Metrology – Year 2016

(table 14)

Registration Category	Number of Registered persons in 2016	Total Registration Fee Rs.
Manufacturers of weighing / measuring instruments	22	54,500.00
Repairers of weighing / measuring instruments	217	638,100.00
Importers of weighing / measuring instruments	43	334,000.00
Sellers of weighing / measuring instruments	253	151,800.00
Total	535	1,178,400.00

Verification Programme - Income in 2016

(Table 15)

Month	Income in Rupees		Number of Units Verified in 2016
	Year 2015	Year 2016	
January	11,726,753	23,412,224	71,458
February	15,677,823	30,166,172	88,628
March	20,184,474	33,571,450	99,228
April	11,308,077	20,755,496	50,414
May	16,686,673	24,838,980	63,217
June	17,131,051	33,223,136	76,621
July	17,640,987	28,111,550	59,977
August	17,365,632	33,606,889	72,188
September	21,605,254	28,247,196	71,478
October	27,013,701	16,798,150	54,339
November	27,954,163	22,187,560	54,276
December	27,784,993	29,653,770	48,747
Total	232,079,581	324,572,573	810,571

Raids Programme – Progress in 2016

(table 16)

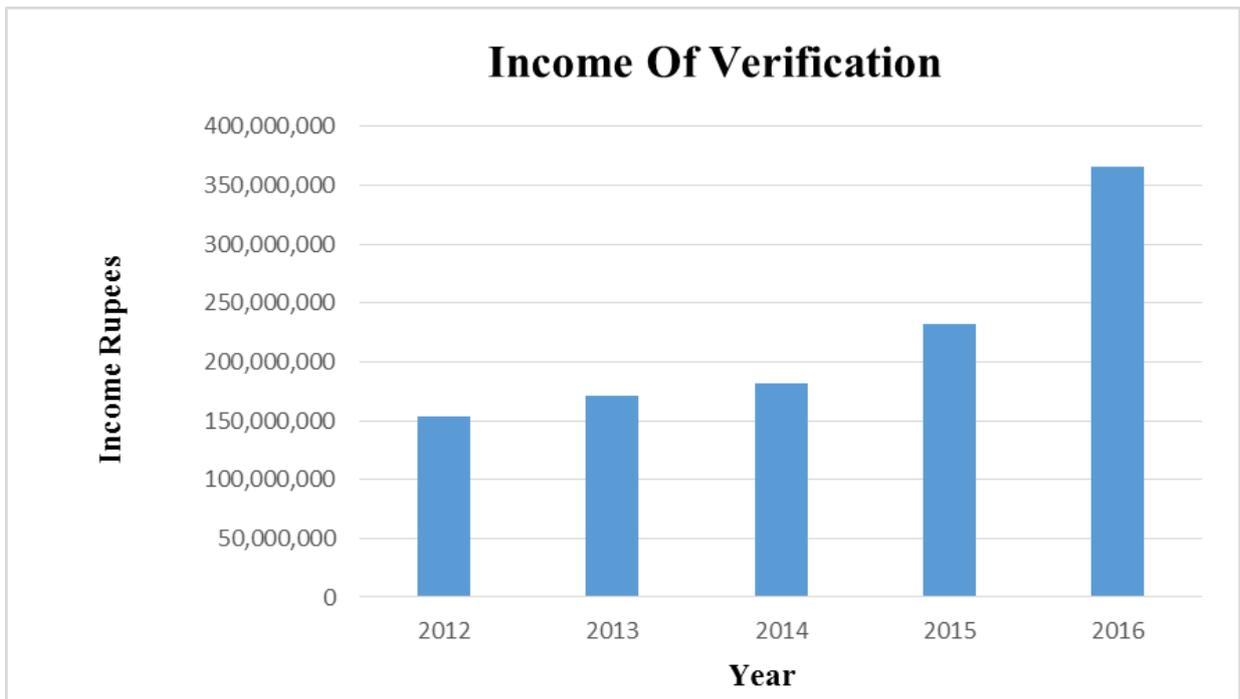

Month	Number of Raids		Fines in Rupees		Number of Cases Concluded	
	2015	2016	2015	2016	2015	2016
