FOREWORD

Year 2007 was an eventful period for the Sri Lanka Army, during which many challenges in the field were accomplished tactically and efficiently. Year 2007 also creates a land mark in history where the Eastern region of Sri Lanka was completely liberated from ruthless terrorism and taken under state control.

The Sri Lanka Army was reasonably equipped and also the Mechanized Infantry Regiment was raised in year 2007. Three new Divisions had also been raised in the Sri Lanka Army and the recruit drive too during the year was remarkable.

This annual report is prepared on careful analysis of comprehensive reports obtained from Branches & Directorates at Army Headquarters and should project an insight into the preparedness and efficiency of the Sri Lanka Army in Operations, Training, Administration and Welfare aspects.

All establishments in the Sri Lanka Army are availed of an in-depth analysis of overall performance during the year under review through this report and thereby will be assisted in the process of forecasting and planning for the forthcoming year. In broader perspective this report will imply achievements of objectives set for year 2007 and also the utilization of budgetary allocation for both capital and recurrent expenditure during the year.

GSC FONSEKA RWP RSP USP rcds psc
Lieutenant General
Commander of the Army

GENERAL

1. The objective of publishing this Annual Report is to produce an analysis into General Staff, Administrative and Logistic matters carried out by Directorates at Army Headquarters and other establishments during year 2007 and also lapses observed due to certain constraints.
2. Assignments completed and proposals for the following year by respective authorities have been included in this report with a view to provide broader insight into events during year 2007.
3. All Senior appointments and Staff appointments at Army Headquarters are indicated at the beginning of the report.
4. The Directorate of Training has trained troops locally and abroad. A considerable number of Officers, Other Ranks and Recruits were trained during the year 2007.
5. A sum of approximately Rs 53,642,850,000.00 was allocated in the Annual Budget for both capital and recurrent expenditure.
6. There is a shortfall of strength in Regiments/Battalions for operational duties. Hence; it is suggested that subject to approval of the Ministry of Defence, the shortfall of operational strength in Regiments/Formations should be fulfilled by recruiting the required number of personnel in lieu of the strength categorized as non operational or disabled.
7. The Sports Control Board had achieved higher standards in Army Sports in year 2007. Army sportsmen and women were exposed to many opportunities at which they were able to tryout their talents at local as well as international level.
8. A total number of 34298 recruits had been enlisted and 208 Officer Cadets have been commissioned during year 2007.

RECOMMENDATIONS20. a. Promotion Examination – Deterioration of academic standards in Current Affairs:

(1) It has been observed that the knowledge in Current Affairs amongst officers who face the Captain to Major Examination is at the lowest ebb. The situation calls for a research-based study since the academic standards of officers are to be maintained necessarily at the highest possible levels on par with those from the SAARC region. Further it is suggested that a package on Current Affairs be introduced in the YO, JCC, JSC and PUCC in view to overcome this situation.

(2) Based on the complexities faced by Officers and Other Ranks in the field where dealing with humanitarian issues have increased, it is deemed important that these issues are dealt with professionally to maintain the credibility of the Army and to influence international opinion favourably. Measures have been taken to educate Officers and Other Ranks on International Humanitarian Law (IHL) and Human Rights (HR) in liaison with the UN, ICRC and HRC since 2000. The knowledge imparted thus should be enhanced and updated. Questions on IHL and HR will be included in the scope of study for the Mil Law paper at promotion exams of the Reg and Vol Forces w.e.f 2008 with a view to generate enthusiasm and also enhance the knowledge of officers in this respect.

4. Recommendations

a. In order to strengthen the IHL & HR training programmes, and other HR & HL related activities of the Sri Lanka Army, it is essential that the Directorate be strengthened in terms of infrastructure and equipment. The present small and cramped accommodation of the Directorate diminishes its importance as a crucial institution within the Army and undoubtedly hampers its efficiency in conducting training, educational programmes and other relevant activities.

b. The Dte should be provided with a high capacity computer system for maintaining a Central Data Bases and laptop computers to enhance the capability / efficiency of dissemination and monitoring activities.

RECRUITING OFFICE1. General survey of the year- 2007.

a. Recruitment. The total number recruited in the year 2007 for the Regular Force is 21864. The number enlisted in year 2006 is 5795. There is a 252 % increase in recruitment in the year 2007. It is observed that most unemployed youth who call over at interview boards do not conform to the laid down education standards. In addition most of them lack the standard of education, IQ, bearing and physique resulting in poor performance and failures in the field. A remarkable acceleration in response and general keenness to join the Army is noticed despite the tense situation in the North and East. The present system of decentralization in recruiting has given the opportunity and challenge among the units to take the initiative to explore the situation and interact with civil authorities in order to fill their shortfalls.

2. Liaison with state civil institutions / organization

a. The Recruiting Office conducted pro-perganda at the under mentioned locations in view to enhance recruits of year 2007.
