The monthly distribution of the Excise tax collected during the years 2014 and 2015 has been indicated in the above diagram. The increase in the excise tax in the year 2015 based on the data of the year 2014 and the way of distribution of the increase in the excise taxes among the factors such as the increase in taxes and increase in the production have been illustrated in the diagram.

The particulars pertaining to the revisions made to the excise tax have been given above and 52.33% was the contribution from the increase in the excise tax for the increase in the excise revenue.

The other factor affected in the increase of the overall excise revenue in the year 2015 was the increasing in the production of the excisable articles. Action had been taken to detect the illegal large scale production of excisable articles and to discourage the illicit exportation of ethanol and manufacture and sale of liquor substitutes using through ethanol Through continues enforcement of laws. Thereby, it was possible to minimize the distribution of illicit and unrecorded alcohol products, and accordingly, the expansion of the market for licit liquor was been noticeable, hence, the increasing in their production. The contribution of the manufacture of liquor on the increase in the Excise revenue was 47.67% during the year under review.
