From the commissioner General of Agrarian Development

The Sri Lankan agriculture which comes from the ancient time as an economy subsistence and contact with the society, is in a more developed situation by now. The Sri Lankan agriculture including paddy cultivation which engrafted with the traditional culture of the of the farmer's community as an economy. Subsistences are now in a more developed stage. Since ancient time our small island which Called as the " Granary of the East" in king Parakramabahu's the grate era, is now lighted upon to a path way of exportation of rice by developing gradually since Parakramabahu era.

Farmers, who cultivate paddy fields by north-east and south-west monsoon rains, and work tit for tat with machinery by their energy, are the major point of the Sri Lankan agriculture. The role of the whole staff of the Department Of Agrarian Development who direct the farmers to the correct path enabling them toward a maximum harvest through new agro technology, highly appreciated.

It is a great pleasure for me to publish the Performance Report pertaining to the year 2013 which depicts the overall performance and the success of the Department of Agrarian Development on year 2013 and I commemorate reverentially the honorable Minister of Economy Development and deputy ministers who assisted in leadership to perform the duties assigned to the Department in year2013

I pay my whole hearted gratitude to all persons who supported and advised to publish this performance report 2013.

M.A.S. Weerasinghe.
Commissioner General of Agrarian Development.

2.10 Agrarian Development Fund.

Rs. 4.1 million was allocated by the Agrarian Development Fund for 09 projects in 07 districts.

2.11 Aluth Sahal Mangalyaya – 06 & 07 April 2013

From ancient time, the main livelihood of Sri Lankan people was paddy cultivation. They obtained the maximum gain from rain and irrigation culture for cultivating paddy. They consecrated the first fruits of their harvest that get at the proper time to the sacred Sri Maha Bodhi in Anuradhapura. This noble task descends from the past.

It is a glorious boon of the department that the above noble task is continuing annually with the integral government concession as a national ceremony called “Aluth Sahal Mangalyaya”.

In its train, according to the guidance of Minister of Economic Development, Deputy Minister and the Secretary to the Ministry of Economic Development, the 46th Aluth Sahal Mangalyaya was wielded splendidly by the department of Agrarian Development with the dominance of Hons. President of Sri Lanka on 6th and 7th April 2013 at the sacred Sri Maha Bodhi in Anuradhapura.

Events from sacred spilling of milk at “Satharawahalkada” up to the arrival of Aluth Sahal Pageant in front of the Sri maha bodhi, were broadcast over the Sri Lanka Broadcasting Cooperation similarly to the previous years. Ancestor Chief Uruwarige Wannile Eththo and his group performed the sacred bee honey and ghee observances. Rice collected and handed over by all Agrarian Services Centers Island wide was observed in this sacred day. Provision of monetary aids and rice was done by the Farmers’ Organizations Island wide. A tremendous contribution was given by the Ministry of Economic Development, Department of Agrarian Development, different Ministries, Departments, Corporations, Authorities, Boards, Local Government of North Central Province and private institutes to succeed this important event. Also, a souvenir named “Jathika Aluth Sahal Mangalyaya” was published.

2.12 Deyata Kirula – 2013.

The “Deyata Kirula” programme of 2013 was wielded splendidly on HARDI Technical College premises in Ampara. In this respect Rs. 25,000,000.00 was allocated by the Treasury. Building of the “Deyata Kirula Pandol”, Creating model home gardens and a Agrarian Services Centre, repairing a tank and several other programmes were done from that allocation, and the total expenditure for those events was Rs. 3,801,671.00. Further, Rs. 19,000,000.00 of the allocation was spent to repair the Agrarian Services Centres in Kurunegala, Kegalle and Puttlam districts. In addition Rs. 2178379.43 was spent for the “Aluth Sahal Mangalyaya” in Anuradhapura. The total expenditure for these programmes was Rs. 24,980,050.43.

2.13 Supply of Mechanical Service.

2.13.1 Dozers/ Escavators

Mechinery division works in connection with the Development and Progress Control division, and implements its duties under the supervision of a Mechanical Superintendent. Presently our department owns 58 machines. Out of that 20 machines were received under the donation of “Japanese Yen” programme in the following years. Mini Excavator and Two Pontoons have been bought in the years of 2009 and 2011 from the government treasury allocation.

year	-	<u>1983</u>	<u>1984</u>	<u>1985</u>	<u>1986</u>	<u>1990</u>	<u>1994</u>	<u>1997</u>	<u>1999</u>	<u>2009</u>	<u>2011</u>	total
Number of												
Machines	-	01	01	06	02	02	05	01	02	01	01	= 22

Arrangements have been made to dispose one dowsers machine and one track shovel due to the decayed circumstances and 20 machines are remaining presently.

In addition 36 Chinese machines were received from the Ministry of Economic Development at the end of the year 2011 and those were functioning from 2012.

2.13.2 The Districts where the Dowsers Machines / Excavators Machines were functioning in the Year 2013.

District	Number of machines
01. Hambantota	12
02. Monaragala	06
03. Kurunegala	13
04. Anuradhapura	23
05. Vaunia	<u>04</u>
Total	<u>58</u>

Except the Pontoon Machines which were purchased in 2009 and 2011 all the other machines have exceeded the limit of 10,000 service hours and according to the number of years used too, it is clear that the life span of the machines has been exceeded.

However, it has been further able to maintain more quantity out of these, still with a good machinery condition as they have been maintained with a quite scarification, a good effort and a control. The provision allocated for 2013 to maintain these

machines was Rs. 18 Million and Rs. 7.72 Million was spent. (The latest price of such machine is Rs. 14 – 15 Million)

These machines are provided to the farmers on concessionary prices and it is about Rs.500/= to Rs 750/= per service hour. (Normally, the market value of a service hour of a such machine is Rs. 3000/= to Rs 4000/=) When the services are not provided to the farmers as aforesaid, these will be provided to other Government Agricultural/ Irrigation and Development programmes too and then also Rs 750/= (maximum) is charged as a government fee.

Rs. 2,885,503.00 was credited to the public revenue in 2013 as the income generated by the maximum use of these machinery which were provided to the farmers in far away rural areas at concessionary prices based on the service requirements, even under very difficult situations. It was found that the income is further to be received from relevant districts due to various financial reasons.

The departmental machineries were used in development and tank rehabilitation projects carried by the Presidential Task Force (Nothern Province) in Vavuniya South which were valued about Rs. 9.00 Mn. The Presidential Task Force has rendered their thank for this service provided under very difficult field conditions.

2.13.3 The contribution of Departmental machinery to the resettlement project carried by Presidential Task Force in Vauniya south and Welioya.

The machinery of Anuradhapura and Kurunegala districts were applied for above project and the total amount of machinery service hours was about 3000.

The market value of a service hour of such machine is more than Rs. 3500.00. In that manner, the calculated value of our contribution, it is more than Rs. 09.00 Mn.

Department was highly appreciated by The Presidential Task Force for the service accomplished with hard dedications and highly ardors in the gross difficult fields of Vauniya south.

In addition, the departmental machinery were applied in essential and urgent projects free of government charges according to the requests made by District Secretaries and Divisional Secretaries and those mechanical services were rendered in sudden disaster conditions even though they are not relevant to the subjects of the department. As an example, the “blocked urban cannel system repairing Programme to save Chilaw city from the flood” in Puttlam district can be pointed out.

03. Engineering Division.

09. Productivity Development and Sales Division.

The major objective of this division is to achieve a maximum harvest by means of introducing a better management procedure. This is achieved by managing agricultural lands and treating them with better management and being the same as the most prioritized task as similarly the vision of Department in the year 2013 is sustainable development of all agricultural lands. All these activities are activated according to internal circulars 14/2012 and 15/2012 which were introduced on 2012.

9.1 Activation of circulars 14/2012 and 15/2012

From 2013, when a land is reviewed as completely not suitable for paddy cultivation, before giving permission to develop the land by filling soil, it has been searched by based on the circular to have or not any chances for cultivate short term crops or fresh water fishes on the land.

The purpose of it is inducing farmers to supply a maximum amount of harvest to country by only cultivating those lands not developing.

The power of giving approvals for developing lands that has pertained to commissioner general of agrarian development by the circular 15/2012, has been accredited to the deputy commissioners and assistance commissioners of districts, by the letter with numbered 7/11/9/21 and dated on 19/06/2013 for increasing the efficiency of that task.

According to the secretary of ministry of agriculture the paddy production of Sri Lanka is at a noble condition. He said it at the conference of district secretaries, was hold at Sri Lanka institute of Development and Administration on 15/08/2013. Because of this situation, farmers are aroused to cultivate additional crops and especial crops on paddy lands by the letter, numbered as 7/11/9/21 and dated on 16/08/2013. According to section 30(2) of Agrarian Develop Act, No 46 of 2000, farmers are instructed about non perennial cultivations at Kanna meetings. All deputy commissioners and assistance commissioners of districts have been advised to motivate farmers for cultivating non perennial crops.

9.2 Applying agricultural lands according to agricultural policies.

A meeting about applying agricultural lands according to agricultural policies with high efficiency, was held at the conference hall of Agrarian Development Department with the headship of the Commissioner General of Agrarian Development on 22/11/2013.

The purpose of this meeting was identifying the reasons that due to idle of paddy lands and the solutions for them. The deputy commissioners and assistance commissioners of districts, which have lots of troubles in cultivating paddy lands were participated to this meeting.

As the result of that meeting, a new circular was drafted for solving troubles of paddy cultivation on 23rd and 24th December 2013 at the Agrarian Development National Training Center of Pothuhera.

The basic purposes of this circular were identifying the abandont paddy lands, arresting them for recultivating and the abandont lands which are unable to re-cultivate, applying for short term crops cultivations or fresh water fishes.

Abandoned paddy lands are identified from this and farmers are motivated to cultivate it before they request for doing such works on the paddy lands. All deputy commissioners and assistance commissioners of districts have been advised that when an illegal matter is occurred, officers should get proper actions at the beginning of it and if they don't get proper actions, they should guarantee it personally.

A better foundation has been generated by the meeting that was held on 22/11/2013 for Appling agricultural lands according to agricultural policies with high efficiency on year 2014,
